Gentlemen:

We are requesting a street name elimination in the Amhurst Greens Subdivision. This street, MacBride Way, is a continuation of Janrick Way.

We are requesting this elimination to reduce the number of streets in our listing. This is agreeable to developer George Reed.

Janrick & MacBride are bisected by Amhurst Street.

At the present time there are only four residences on MacBride Way.

Yours very truly,

KENNETH R. HAMMAKER, Postmaster

DIRECTOR'S RECOMMENDATION:

The original design of this area required, for street addressing purposes, that the subject streets have different names (Janrick and MacBride).

Recent design of the proposed street extensions, however, now indicates that one street name will be adequate.

It is therefore recommended that the subject request be approved
