

APPLICATION FOR PERMIT TO BUILD

450 1st St,

Street No. 3713 - Stockton Ave. Lot 1141-W-K-2 Block 12-13-Ave. St. Paul.

Owner F. T. Wollenberg Address 3713 - Stockton Ave.

Architect \_\_\_\_\_ Address \_\_\_\_\_

Contractor Self Address \_\_\_\_\_

Kind of Building 1 Story 5-Room Frame Dwlg.

Foundation \_\_\_\_\_

Permit 2495  
Date 11/3/22  
District 100

Posts	Girder		Span		Mud Sills	
	1st Floor	2nd Floor	3rd Floor	4th Floor	5th Floor	6th Floor

Joists						
Max. Span						
Bearing Partitions	<u>1 Stall Private Garage Woodwork</u>					
Non Bearing Part'ns						
Story Height	<u>3 ft. inside of Property line</u>					
Outside Walls				<u>No Water</u>		

Ceiling Joists \_\_\_\_\_ Span \_\_\_\_\_

Roof \_\_\_\_\_ Rafters \_\_\_\_\_

Water Heater \_\_\_\_\_ Chimney \_\_\_\_\_

Size of Building—Length \_\_\_\_\_ Width \_\_\_\_\_ Height \_\_\_\_\_

It is hereby agreed that this building will be constructed in conformity with the Ordinances of the City of Sacramento and the Laws of the State of California.

Estimated Cost, \$ 100

Plans must be submitted

F. T. Wollenberg  
Owner or Owner's Representative.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in the context of public administration and government operations. The text notes that without reliable records, it becomes difficult to track the flow of funds, assess performance, and identify areas for improvement.

2. The second part of the document outlines the various methods and tools used for data collection and analysis. It highlights the need for standardized procedures to ensure consistency and reliability of the data. The text mentions the use of both manual and automated systems, as well as the importance of regular audits and quality control checks to minimize errors and ensure the integrity of the information.

3. The third part of the document focuses on the challenges and limitations of current data management practices. It identifies several key issues, such as data fragmentation, lack of interoperability between different systems, and the potential for data loss or corruption. The text also discusses the impact of these challenges on the overall effectiveness of the data-driven processes and the need for innovative solutions to address these problems.

4. The fourth part of the document proposes a comprehensive framework for improving data management and analysis. This framework includes several key components: (a) the establishment of a central data repository to consolidate information from various sources; (b) the implementation of robust security and access control mechanisms to protect sensitive data; (c) the development of user-friendly interfaces and tools to facilitate data access and analysis; and (d) the implementation of a continuous monitoring and evaluation process to assess the effectiveness of the framework and make necessary adjustments.

5. The fifth part of the document discusses the role of technology in enhancing data management and analysis. It highlights the potential of emerging technologies, such as artificial intelligence, machine learning, and cloud computing, to revolutionize the way data is processed and analyzed. The text notes that these technologies can help automate repetitive tasks, identify patterns and trends, and provide more accurate and timely insights into the data.

6. The sixth part of the document addresses the importance of human resources and training in the successful implementation of data management and analysis. It emphasizes that while technology is a critical enabler, it is the skills and knowledge of the personnel involved that ultimately determine the success of the data-driven processes. The text recommends investing in training and development programs to equip staff with the necessary skills and knowledge to effectively manage and analyze data.

7. The seventh part of the document discusses the need for a strong governance structure to oversee and coordinate data management and analysis activities. It emphasizes that clear roles and responsibilities, as well as a robust decision-making process, are essential for ensuring the effective and efficient use of data. The text suggests the formation of a dedicated data governance committee to oversee the implementation and maintenance of the data management framework.

8. The eighth part of the document discusses the importance of data privacy and security in the context of data management and analysis. It highlights the need to implement strong security measures to protect sensitive data from unauthorized access, disclosure, and loss. The text also emphasizes the importance of transparency and accountability in data handling, particularly in the context of public administration, where the trust of the citizens is paramount.

9. The ninth part of the document discusses the potential benefits and impact of improved data management and analysis. It notes that a more effective and efficient data-driven approach can lead to better decision-making, improved service delivery, and increased transparency and accountability. The text also highlights the potential for data to be used to identify and address social and economic challenges, thereby contributing to the overall well-being of the community.

10. The tenth part of the document concludes with a call to action, urging the relevant stakeholders to take immediate steps to implement the proposed framework and address the identified challenges. It emphasizes that the successful implementation of data management and analysis is a continuous process that requires ongoing commitment, resources, and collaboration from all involved parties.
