City Council

Honorable Members in Session:

SUBJECT: South Natomas Community Plan (M-719)

SUMMARY

On November 6, 1985, the City Council discussed several land use changes to the Draft Community Plan. A list of the proposed amendments and a community plan map and tables of the acreage, square footage and dwelling unit statistics reflecting the proposed changes are attached for the Council's information.

BACKGROUND INFORMATION

Attachment A describes the proposed land use changes.

NOTE: The total acreage of the Capitol 80 site is approximately sixty acres. The Council Intent Motion of July 1985 proposed designating 23+ acres for highway commercial and 37+ acres for low density residential. The November 6, 1985 amendment proposed redesignating 25 through 37 acres from low to medium density residential. After reviewing possible land use configurations, staff recommends that if the Council considers land use amendments on the project site the entire 37 acres be redesignated to medium density residential. That recommendation is reflected in Attachments A, B and C.

Attachment B is the community plan land use map reflecting the Council's July 1985 intent motion and the November 6, 1985 proposed amendments.

Attachment C consists of three tables depicting the acreage, square footage and dwelling unit statistics portrayed by Attachment B.

Ms. Lorraine Magana
City Clerk
City of Sacramento
915 "I" Street, Room 203
Sacramento, California 95814

Dear Ms. Magana:

On behalf of The Cook Company, I would like to request that the Council allow The Cook Company Northgate application (P83-393) to be withdrawn. That application requested that the 7+ acre site involved be zoned MRD, with an allowed coverage of 135,000 square feet.

Our withdrawal request stems from a desire to retain the current land use designation for the site: namely, highway commercial. Accordingly, we would request that, as part of the current community update process, the site be given a general plan designation of commercial and office, a community plan designation of highway commercial and be zoned highway commercial. It is our view that our requested plan and zoning designations are a reasonable and appropriate land use, particularly given the proximity of the property to the Northgate/Interstate 80 Interchange.

We will be present at the November 6, 1985, Council meeting to respond to any questions which may arise concerning our request.

Very truly yours,

John M. Taylor
