

PLANNING DIRECTOR'S SPECIAL PERMIT

1231 'I' STREET, SUITE 200, SACRAMENTO, CA 95814

APPLICANT	Vitiello & Assoc., Inc., 1931 H Street, Sacramento, CA		
OWNER	Macor Inc. Don Morial, 900 7th Street, San Francisco, CA		
PLANS BY	Vitiello & Assoc., Inc., 1931 H Street, Sacramento, CA		
FILING DATE	4/6/84	ENVIR. DET.	Exempt 15301a
ASSESSOR'S-PCL. NO.	062-150-014	REPORT BY	BW:kjr

APPLICATION: Planning Director's Special Permit to exceed 25 percent office use for a proposed 4,000 square foot building on 5.82+ developed acres in the Heavy Industrial M-2(S) zone.

LOCATION: 8761 Younger Creek Drive

PROPOSAL: The applicant is requesting the necessary entitlements to construct an office building which occupies more than 25 percent of the allowed building square footage in the M-2(S) zone.

PROJECT INFORMATION:

General Plan Designation:	Industrial
1986 South Sacramento Community Plan Designation:	Industrial
Existing Zoning of Site:	M-2(S)
Existing Land Use of Site:	Vacant

Surrounding Land use and Zoning:

North: Warehouse/Office/Vacant; M-2(S)
South: Manuf./Residential/Vacant; M-2(S)
East: Vacant; M-2(S)
West: Manuf./Vacant; M-2(S)

Parking Required:	32 (1:400 office 1:500 Commercial)
Parking Provided:	32
Property Dimensions:	Irregular
Property Area:	5.82+ acres
Square Footage of Building:	4,000 sq. ft. office/8,400 Vehicle Maint. Bldg. 2,400 Truck Wash
Height of Building:	29 feet
Topography:	Flat
Street Improvements:	Existing
Utilities:	Existing
Exterior Building Materials:	Painted concrete or stucco
Roof Material:	Metal

PROJECT EVALUATION: Staff has the following comments:

A. Land Use and Zoning

The subject site consists of one parcel totaling 5.82+ vacant acres in the Heavy Industrial M-2(S) zone. The site is designated for Industrial in both the General

01588

Plan and the 1986 South Sacramento Community Plan respectively. Surrounding land uses include a warehouse, office, and vacant lot to the north, zoned M-2(S); residential and manufacturing to the south, zoned M-2(S); and a manufacture use and vacant lot to the east and west, zoned M-2(S).

Offices are allowed in the M-2(S) zone only if they are incidental to an industrial use and do not occupy more than 25 percent of the gross floor area of the building(s). The Zoning Ordinance, however, gives the Planning Director the authority to issue a special permit for offices in the M-2(S) zone that occupy more than 25 percent of the gross floor area of a building provided the total office area does not exceed 10,000 square feet.

B. Applicant's Proposal

The applicant is proposing to construct a 4,000 square foot office building, an 8,400 square foot vehicle maintenance building, and a 2,400 square foot truck wash building. The office building and vehicle maintenance facility will be used by Sac Val Disposal Company.

C. Building Design

The exterior building materials proposed for the structure consist of painted concrete or stucco with a metal roof. The office building's height is 29 feet with 1/2 floors. Exterior building colors will be light earthtone with an accent color roofing. Staff has no opposition to the proposed design. Adequate building setbacks are provided.

The vehicle maintenance building and truck building will be compatible with the office building's exterior building materials and colors.

D. Parking and Circulation

The submitted site plan indicates 32 parking spaces and 4 bicycle parking spaces. Sufficient parking is being provided for the office structure and the vehicle maintenance building and truck wash. The zoning ordinance requires a 1:400 parking ratio for office and a 1:500 parking ratio for commercial type uses.

Entering and Exiting will be off of Younger Creek Drive. The site plan indicates a 25 foot landscape street side setback. Landscaping is also proposed along the east perimeter of the building. Staff recommends that a landscape plan be submitted to staff for review and approval prior to issuance of building permits.

E. Conclusion

The proposed office project is interesting in architectural design and color. The office building will compliment the additional structures on the subject site and in the surrounding area. The 4,000 square foot office building proposal would not significantly impact the level of service for the existing street system on Younger Creek Drive. In addition, adequate parking and access will be provided.

ENVIRONMENTAL DETERMINATION: The proposed project is exempt from environmental review pursuant to CEQA Guidelines [Section 15301(a)].

STAFF RECOMMENDATION: Staff recommends approval of the Planning Director's Special Permit subject to conditions and based upon findings of fact which follow:

Condition

- 1. The applicant shall submit a landscape plan to the Planning staff for review and approval prior to issuance of building permits.

Findings of Fact

- 1. The project is based upon sound principles of land use in that:
 - a. adequate space is provided on the space for a 4,000 square foot office building
 - b. the proposed use is compatible with existing office and manufacturing uses in the area
- 2. The project will not be detrimental to the public health, safety, or welfare, nor to neighboring properties in the vicinity, in that:
 - a. adequate on-site parking and landscaping will be provided
 - b. the proposed office use will not significantly increase the traffic in the area
- 3. The project is consistent with the City's General Plan and South Sacramento Community Plan, in that, the proposed office use conforms to the industrial designation.
