Honorable Mayor and
Members of the City Council

Subject: FY05-06 SUPPLEMENTAL AGREEMENTS FOR PROFESSIONAL
SERVICES FOR PLAN REVIEW AND INSPECTION SERVICES FOR
THE DEVELOPMENT SERVICES DEPARTMENT

Location/Council District: Citywide

Recommendation:

Staff recommends adoption of the attached resolution authorizing the City Manager to execute contract supplements with plan review and inspection consultants totaling \$1,172,000.

Contact Person: Ron Beehler, Chief Building Official, 808-8024
Robert Stetson, Senior Engineer, 808-8049

Presenters: Ron Beehler and Robert Stetson
Department: Development Services Department
Division: Building
Organization No: 4866

Summary:

The attached resolution authorizes the City Manager to approve supplemental agreements for building consultant services. These services will allow the Development Services Department to maintain adequate service levels in plan review and inspection services for the FY05-06.

Committee/Commission Action: None

Background Information:

The use of professional services contracts for consultants and temporary inspections services provides flexibility in meeting service demand levels. The Building Division is in the process of filling existing vacancies and recruiting for additional positions received

at the FY05-06 budget hearings. As part of our goal for efficient use of consultants, the Building Division will be re-balancing the work among the various consultants. The need for consultant support for plan review and field inspection is anticipated to be lower than in prior years. Consultant expenditures for the Building Division in FY03-04 were \$3.9 million and in FY04-05 consultant expenditures are expected to total \$1.9 million.

The recommended supplements contained in this report will increase our ability to utilize the expertise of certain consultants. The recommended contract supplements are intended to address staffing and workload needs until the end of March of the current fiscal year. The total of all increases in the supplements total \$593,000 less than our budget for consulting services. The balance will be available for projects depending upon our needs and our consultants' abilities at the time.

Financial Considerations:

The total Building Division consultant services budget for FY05-06 is \$1.765 million. The expenditures related to the recommended supplemental agreements total \$1,172,000, leaving a balance of \$593,000. Sufficient funding exists in the Building Division consultant budget for this request. There is no impact on the General Fund.

Environmental Considerations:

There are no environmental considerations associated with this report.

Policy Considerations:

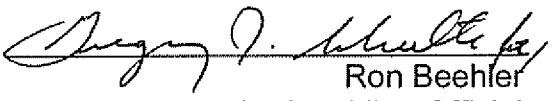

This request to adopt the attached resolution is in accordance with the policy recommended by the Mayor's Commission to contract out Building Division workload that cannot be performed by City employees. It is also in accordance with policy requiring City Council approval of all contracts over \$100,000.

Emerging Small Business Development (ESBD):

Of the fifteen consultants proposed for supplements, only three are currently certified as Emerging or Small Businesses Enterprises. An additional consultant has an expired certification and is currently renewing it. Of the \$1,172,000 included in the resolution, only 11% is slated for certified ESBD's. However, the majority of the businesses listed appear to qualify for certification, and staff will encourage the businesses to seek certification prior to August 2, 2005.

Subject: Supplemental Agreements For Professional Services
For Plan Review and Inspection Svcs for Dev Svcs Dept.
