

**CITY OF SACRAMENTO
DEPARTMENT OF PLANNING & DEVELOPMENT
ZONING ADMINISTRATOR
1231 I Street, Sacramento, CA 95814**

ACTION OF THE ZONING ADMINISTRATOR

On Wednesday, January 15, 1997, the Zoning Administrator ratified the Negative Declaration and approved with conditions a special permit to add PCS antenna panels on the roof of an existing office building for the project known as Z96-148. Findings of Fact and conditions of approval for the project are listed on pages 2-3.

Project Information

- Request: 1. Negative Declaration
2. Zoning Administrator Special Permit to add nine wireless communications antenna panels mounted to the sides of an existing seven story office building located on 0.30± developed acres in the Central Business District- Special Planning District (C-3) zone.

Location: 1414 K Street (D1, Area 1)

Assessor's Parcel Number: 006-0116-002

Applicant: Sprint Spectrum L.P. c/o Gearon & Co. (Cheryl Pence)
 3065 Gold Camp Drive
 Rancho Cordova, CA 95670

Property Sacramento City Employees Retirement System
Owner: 800 10th Street
 Sacramento, CA 95814

General Plan Designation: Community Neighborhood Commercial and Offices
Central City
Community Plan Designation: Multi-Use
Existing Land Use of Site: Office Building
Existing Zoning of Site: Central Business District- Special Planning District (C-3)

Surrounding Land Use and Zoning:
North: C-3; Commercial
South: C-3; Vacant Office
East: C-3; Commercial
West: C-3; Office

Property Dimensions: 80 feet x 161 feet
Property Area: 0.34± acres
Topography: Flat
Street Improvements: Existing
Utilities: Existing

Project Plans: See Exhibits A-D

Previous Files: None

Additional Information: The applicant proposes to attach nine antenna panels to the sides of the existing seven story building and the installation of four equipment cabinets within the mechanical penthouse on the roof. Each antenna panel is six feet long and nine inches wide. Each cabinet is 2.5 feet wide by five feet tall by 2.5 five feet deep (6.25 square feet). Any cellular equipment (antennas) which both receives and transmits requires a Special Permit according to the Zoning Ordinance.

The site is located within the Fremont Park Neighborhood Association area. The project plans have been sent to the association and staff received several calls initially from the association over siting concerns. The applicant met with the neighborhood association and they do not object to the project. The project has been noticed and staff has not received any calls.

The site is within the Central City Design Review area. An application has been submitted to Design Review staff (PB96-060). Design Review staff has reviewed the project and has no additional comments on the design.

Environmental Determination: This project, as proposed, will not have a significant impact on the environment and a negative declaration with no mitigation measures has been prepared and filed.

Conditions of Approval

1. Size and location of the antennas shall conform to the plans submitted. The applicant shall use non-reflective paint on the antenna panels to prevent glare and the antenna shall be painted to match the building at the point of attachment.
2. Any additional antennas shall require a modification of the Special Permit. {9 antenna panels are approved}
3. The applicant shall obtain all necessary building permits prior to commencing construction.
4. All support brackets, connections, cables, electrical boxes, etc., shall not be visible

and will be painted to match the building.

5. Should the applicant every discontinue using the antenna panels for wireless services then the applicant shall remove the panels within six months of termination.
6. Prior to final sign-off of the building permit the applicant shall contact City Preservation Board staff (Randy Lum, 264-5896) for site inspection and final approval.

Findings of Fact:

1. The proposed project, as conditioned, is based upon sound principles of land use in that the antennas will be added inconspicuously on an existing office building roof parapet.
2. The project will not be detrimental to the public health, safety, or welfare nor result in a nuisance in that:
 - a. the proposed cellular equipment cabinets will be located on the roof within the mechanical penthouse of the existing office building and the antennas will be attached to building roof parapet; and
 - b. the design and location of the antennas will not significantly impact the surrounding commercial area.
3. The project is consistent with the General Plan and the Central City Community Plan which designate the subject site as Community Neighborhood Commercial and Offices and Multi-Use, respectively.

Joy D. Patterson
Zoning Administrator

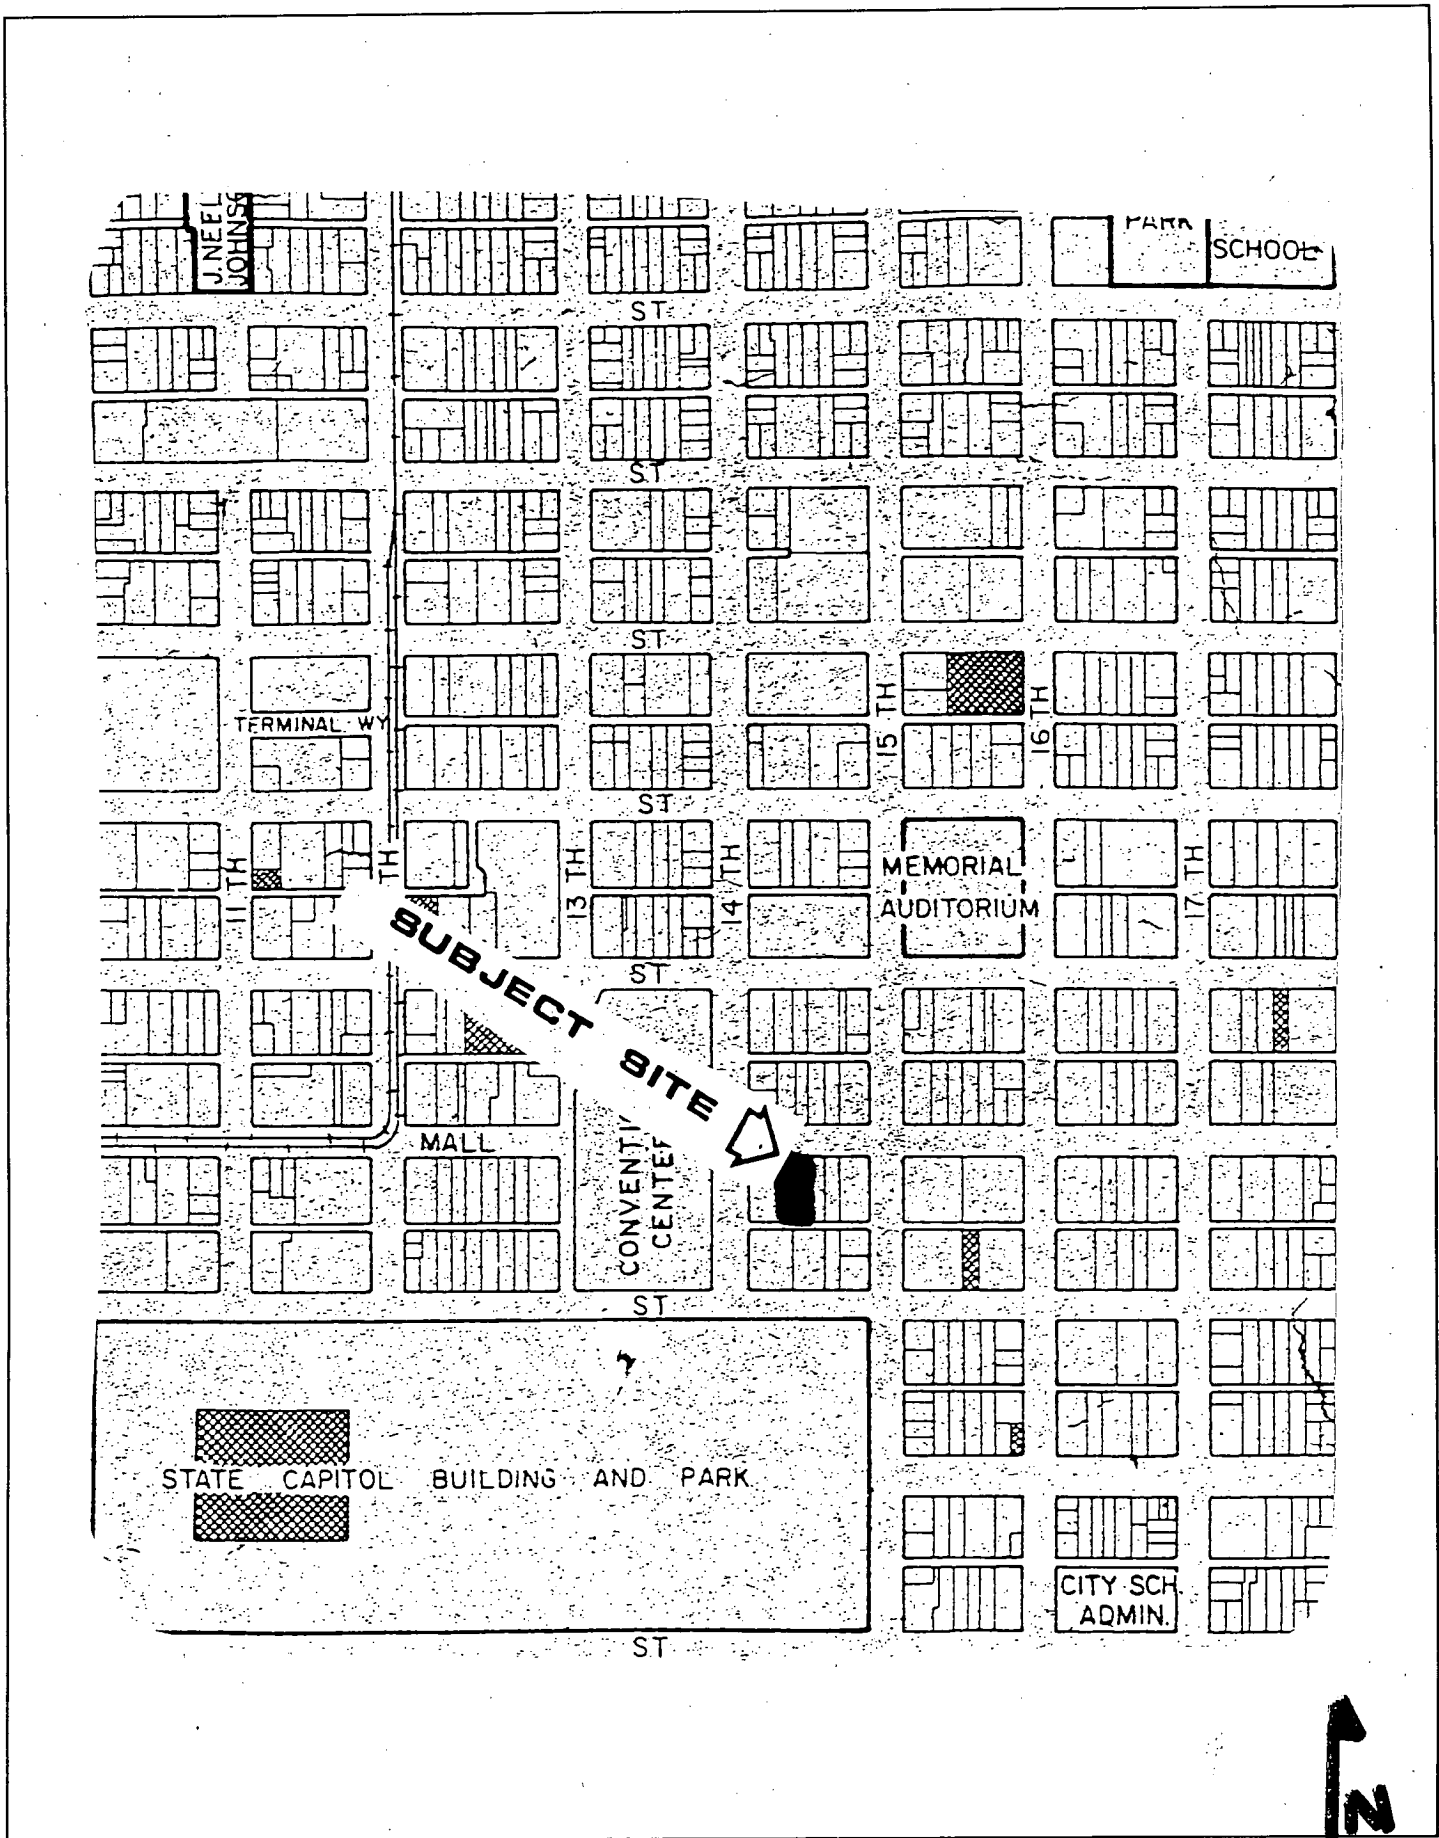

A use for which a Special Permit is granted must be established within two years after such permit is approved. If such use is not so established the Special Permit shall be deemed to have expired and shall be null and void. A Special Permit use which requires a Building Permit shall be deemed established when such Building Permit is secured and construction thereunder physically commenced. If no building permit is required, the use shall be deemed established when the activity permitted has been commenced.

The decision of the Zoning Administrator may be appealed to the Planning Commission. An appeal must be filed within 10 days of the Zoning Administrator's hearing. If an appeal is not filed, the action of the Zoning Administrator is final.
