January 29, 2002

Mr. & Mrs. Garcia 695 Sotano Dr. Sacramento, CA 95833

CITY COPY

Re-roof at your residence on 695 Sotano Dr., Sacramento, CA 95833 This inspection and letter is our Job # 02-217. RE:

Per your request, on January 29, 2002, I performed a visual inspection of existing roof framing at the aforementioned residence. The purpose was to determine if the existing roof framing is acceptable to support a light weight tile instead of the existing wood shake. The existing roof framing consisted of pre-manufactured trusses spaced at 24" c.c.. The trusses were constructed

The residence is a tri-level with a 1 story and and a 2 story structure with 3 bedrooms upstairs of 2x4 df framing members. and the typical living areas (kitchen, dining, living room) and a family room and garage at the lower story. Attachment #1 shows a sketch of the roof plan with approximate dimensions.

Based on the inspection, please be advised that it is structurally acceptable to remove the existing wood shake roofing material that weighs approximately 3 psf and replace it with a light weight Tile (6.0 psf or less - 600# per square) on the aforementioned residence. The new material is approximately 3.0 psf heavier and will not adversely affect the existing roof structure.

Thus, it is my professional opinion that the removal of the existing wood shake and the placement of the light weight tile will not have an adverse affect on the structural integrity of the

If you have any questions or need further clarification on these matters please feel free to contact existing structure. me at (916) 564-6028.

Sincerely,

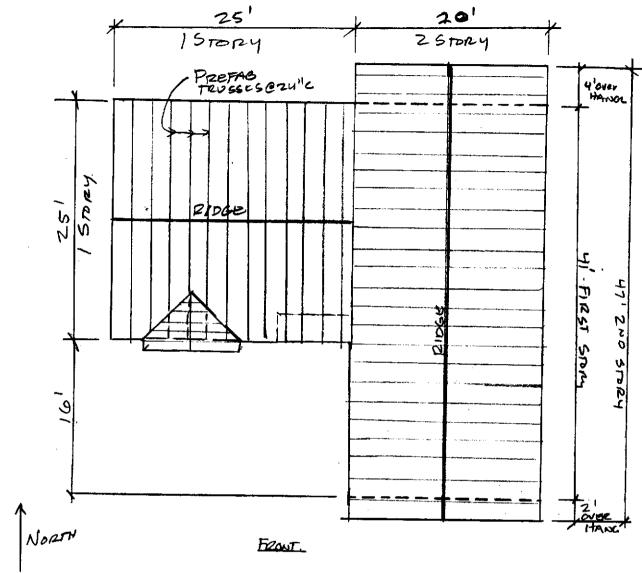

make any changes or attended from the the without written permission from the Bundang Inspection Division. The approval of this pian and specification

SHALL NOT be held to permit or while the violation of any City Ordinance or State Law.

s and of plans and snorth, addition, must be
