City Council  
Sacramento, California

Honorable Members in Session:

**SUBJECT:** Approval of Plans and Specifications for Construction  
of a 24" Diameter Water Transmission Main  
(Richards Boulevard to West El Camino Avenue)

**APPROVED**  
BY THE CITY COUNCIL

APR 28 1981

OFFICE OF THE  
CITY CLERK

### SUMMARY

The Division of Water and Sewers and the firm of Dewante & Stowell, consulting engineers, have prepared plans and specifications for the subject project. It is recommended that the plans and specifications be approved and the project be advertised for bid.

### BACKGROUND

This project is part of the current 5-year Capital Improvements Program to extend filtered surface water across the American River to the Natomas Area of North Sacramento. It will also help perfect the City's surface water rights and reduce withdrawals from the underground supply. This project is currently necessary to maintain adequate fire protection and water pressures during peak demand periods. This report was submitted to and approved by the Budget and Finance Committee on April 21, 1981.

### FINANCIAL

The final construction cost estimate for this project is \$762,800 and \$97,200 less than the preliminary estimate of \$860,000 developed by the consultant in May, 1980. The 1977/78 Capital Improvements Budget included \$175,000 for this project, and the 1980/81 Capital Improvements Budget, which was prepared before the consultants preliminary estimate was received, included only an additional \$200,000. To date, the City has encumbered \$89,500 for design, right of way and inspection. The budget balance is \$285,500. An additional \$477,300 is required and is available in the Water Fund. A request for a fund transfer and budget amendment in the exact amount required will be made at the time of recommendation of award.

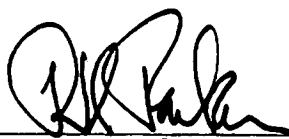

RECOMMENDATION

It is recommended that the plans and specifications for the subject project be approved and advertised for bid, and that bids be received on May 19, 1981.

Respectfully submitted,

  
Robert W. Johnston  
Acting Manager

Recommend approval,

  
R. H. Parker  
City Engineer

Recommendation approved:

  
Walter J. Slipe
