Honorable Members In Session:

SUBJECT: Eliminate PCB Transformers at Combined Wastewater Treatment Plant  
(PN:WA36) - Resolution Approving Negative Declaration

SUMMARY

The Environmental Coordinator finds that this project will not have a significant adverse effect on the physical environment and, therefore, recommends that the project and a Negative Declaration be approved by the City Council.

BACKGROUND

In accordance with the State EIR Guidelines for implementation of the California Environmental Quality Act of 1970, dated June 1986, an initial study was performed. As a result of this study, it was determined that the Eliminate PCB Transformers at Combined Wastewater Treatment Plant project would not have a significant adverse effect on the physical environment, and a Draft Negative Declaration was prepared.

On March 3, 1987 the Negative Declaration was filed with the County Clerk. On March 9, 1987 Notice of Opportunity for Public Review of the Draft Negative Declaration was published in the Sacramento Union. The appropriate length of time has elapsed for comments regarding the Negative Declaration with no comments having been received.

This project will replace the transformers at the Combined Wastewater Treatment Plant that have been contaminated by PCB's. The PCB will be handled and destroyed in accordance with the Environmental Agency requirements.
