

## **RESOLUTION NO. 2014-0231**

Adopted by the Sacramento City Council

July 15, 2014

### **ESTABLISHING A CAPITAL IMPROVEMENT PROJECT AND APPROPRIATING FUNDS FOR THE 28TH STREET LANDFILL FLARE REPLACEMENT PROJECT (Y13000100)**

#### **BACKGROUND**

- A. To comply with clean air regulations, the methane gas generated by the buried waste at the 28th Street landfill must be continuously burned using two flare stations that are part of the landfill gas collection system.
- B. On December 4, 2013, a fire permanently damaged one of the flare stations, thus eliminating the system redundancy that ensures continual operation.
- C. The remaining operational flare station is oversized for the declining quality and quantity of landfill gas generated at the site and is prone to periodic shut downs, which may violate conditions of the City's landfill closure permit and may prompt regulatory action.
- D. The construction of a new flare station to replace the fire-damaged flare station will ensure the continual burning of methane gas in compliance with clean air regulations set by the California Air Resources Board and the Sacramento Metropolitan Air Quality Management District.

#### **BASED ON THE FACTS SET FORTH IN THE BACKGROUND, THE CITY COUNCIL RESOLVES AS FOLLOWS:**

- Section 1. The 28th Street Landfill Flare Replacement Project capital improvement project (Y13000100) is established.
- Section 2. Appropriating \$619,897 from the Solid Waste Fund (Fund 6007) to the 28th Street Landfill Flare Replacement Project (Y13000100) is approved.
- Section 3. An expenditure budget in the amount of \$619,897 (Solid Waste Fund, Fund 6007) is established for the 28th Street Landfill Flare Replacement Project (Y13000100).

Adopted by the City of Sacramento City Council on July 15, 2014, by the following vote:

Ayes: Members Ashby, Fong, McCarty, Warren and Mayor Johnson.

Noes: None

Abstain: None

Absent: Members Cohn, Hansen and Schenirer

Vacant: District 8

Attest:
