The Engineer's estimate was \$17,870.00

### BACKGROUND

As part of the division's program to upgrade substandard portions of the North Area's distribution system, this main is needed to provide additional fire flow capabilities. This area currently has substandard fire flow capabilities (900 gpm to 1,500 gpm).

### FINANCIAL DATA

This project was budgeted in the 1980-81 fiscal year budget for the Division of Water & Sewers for \$15,000.00 of which \$14,761.00 remains. Therefore, an amendment to this budget will be necessary to cover the amount of the lowest responsive bid (\$15,060.00) plus surveying and inspection costs. \$800.00 will be transferred from

the Water Fund (4-13) to the Water Distribution Capital Improvement, 4-13-3030-1514-4820. See attached Resolution.

RECOMMENDATION

It is recommended that the low bid of Mike Maletic Construction (\$15,060.00) be accepted and that a resolution be passed amending the budget.

Respectfully submitted,

Robert W. Johnston  
Acting Manager
