In accordance with request of the State Division of Highways on date of December 10, 1964, and recommendation of the City Manager, Councilman Nielsen moved that the foregoing report be adopted as city policy and the State Division of Highways so notified:

Honorable City Council  
Sacramento, California

January 14, 1965

Members in Session:

The City of Sacramento did not state its position concerning the proposed routing of Route 80 at the hearing held on January 12. However, Mr. Warren, the District Engineer, was informed by the Manager that the City wished to state its position by letter, subsequent to the hearing.

7168 It is recommended that the City endorse Route A as shown by the exhibit of the State Division of Highways and, at the same time, indicate its strong interest in local access, including, but not limited to, that which is to be made available to the new Post Office facility.

Apparently, many persons have expressed the thought that the new facility should be placed in Del Paso Park because, thereby, private property would be less disturbed. With this thesis, both Park authorities and the Manager completely disagree. Statewide, there is strongly voiced opinion that freeways should not encroach upon and damage the only too few areas which have been set aside for parks and recreation. Del Paso Park has already suffered from freeways. To permit further encroachment into Del Paso Park of more freeway would be contrary to public interest, and the City should strongly oppose any such idea. Unless the City protects this park property, no one else will. The park would be dissipated, acre by acre, into uses at complete variance with its use as the City's largest park and recreation facility.

Respectfully submitted,

s/E. A. Fairbairn  
City Manager
