ACTION OF THE ZONING ADMINISTRATOR

On March 13, 2001, the Zoning Administrator approved with conditions a Special Permit to reduce the front setback length for the project known as Z01-008. Findings of Fact and Conditions of Approval for the project are listed on page 3.

Project Information

Request: **Zoning Administrator Special Permit** to reduce the front setback from 25 feet to 20 feet located on 0.17± developed acre in the Standard Single Family (R-1) zone.

Location: 4975 F Street (D3, A1)

Assessor's Parcel Number: 004-0262-013

Applicant: Jeffrey Muss & Marilyn Bryant
4975 F Street
Sacramento, CA 95819

Property Owner: Same as above

Project Planner: Donna Decker

General Plan Designation: Low Density Residential (4-15 du/na)
Existing Land Use of Site: Single Family Residence
Existing Zoning of Site: Standard Single Family (R-1) zone

Surrounding Land Use and Zoning:	Setbacks	Required	Provided
North: R-1; Residential	Front:	25'	20'

<u>Letters:</u>	Exhibits E-F
<u>Previous Files:</u>	None

Additional Information: The applicant is requesting a Special Permit to modify and construct a 1,304± addition to an existing single family residence. The modification involves relocating the existing detached garage to the east side of the property. The garage projects five to six feet into the front setback area. The removal of the existing detached garage allows the applicant to construct a two story addition to the home. The purpose of the modification is to enlarge a small two bedroom, one bath home to a four bedroom, three bath home. The project requires a Zoning Administrator Special Permit to allow the addition to encroach into the front setback area. The current floor plan has both bedrooms fronting on 50th Street. Historically, traffic noise on 50th Street is greater than on F Street due to buses and delivery trucks using 50th Street as a route to Sutter Memorial Hospital. The applicant wishes to relocate the bedrooms from the 50th Street frontage to the west side of the property placing them on F Street. The area proposed currently has a detached garage located which will be demolished. The remodel has included an attached garage fronting onto 50th Street. The proposed garage projects approximately five feet beyond the adjacent garage. There was some concern that the proposed location may impact the views or back-out zone of the adjacent structure. During a site review, the property was staked to ensure the view would not be impacted from the north property. It was determined that the garage at the north property projects forward of the dwelling entry. Views from the front entry of the north property have not been impacted by the proposed project. The addition is proposed to be constructed with like materials so that it will appear as an integral component of the existing structure, will be complementary to the existing structure and will be compatible with the surrounding properties. The Zoning Ordinance allows modifications to be made with a special permit to existing residences that enhance the desirability and vitality of an existing house in order to encourage the continued ownership and occupancy. The modifications allowed include reducing required setbacks. The applicant is requesting the special permit under those provisions.

The project was noticed to the East Sacramento Improvement Association, the McKinley Elvas Neighborhood Alliance, as well as the neighboring owners within a 100 foot radius of the subject site property corners. There were some calls for additional information. There was opposition to the project expressed from the property owner to the North. However, per the discussion above, no impact to the adjacent property was evidenced. The East Sacramento Improvement Association and the McKinley Elvas Neighborhood Alliance were notified and both groups responded in support of the project.

Agency Comments: The proposed project was reviewed by the Building Division, and any comments received have been included as conditions..

Environmental Determination: This project will not have a significant effect on the environment and is categorically exempt from environmental review pursuant to the California Environmental Quality Act Guidelines, Sections 15301(e) and 15305(a).

Conditions of Approval

1. The applicant shall obtain all necessary building permits prior to commencement of construction. The project shall be constructed as shown on the submitted plans. Any modification may require additional review and approval by the Planning Department and revised plans may be required to be submitted.

1. All roof jacks and roof ventilation protruding from the roof shall be painted to match the roof color or the trim.

2. There shall be no additional encroachment into the front yard setback area.

Findings of Fact:

1. The proposed project, as conditioned, is based upon sound principles of land use in that:
 1. The proposed project will not substantially alter the characteristics of the surrounding neighborhood; and,
 2. The proposed structure is compatible in architecture with the existing residence.

2. Granting the request will not be injurious to public health, safety, or welfare nor result in a nuisance in that:
 - A. There is adequate available yard area;
 - B. The addition to the existing residence adds vitality and desirability for the existing home to allow the present occupants to remain.

3. The project is consistent with the General Plan Designation which designates the subject site as Low Density 4-15 du/na.

Joy D. Patterson
Zoning Administrator

A use for which a Special Permit is granted must be established within two years after such permit is approved. If such use is not so established the Special Permit shall be deemed to have expired and shall be null and void. A Special Permit use which requires a Building Permit shall be deemed established when such Building Permit is secured and construction thereunder physically commenced. If no building permit is required, the use shall be deemed established when the activity permitted has been commenced.

The decision of the Zoning Administrator may be appealed to the Planning Commission. An appeal must be filed within 10 days of the Zoning Administrator's hearing. If an appeal is not filed, the action of the Zoning Administrator is final.

Dear Ms. Decker,

As the neighbors immediately to the west of the proposed project, we will be looking at the two-story side of the house.

We have seen the plans and support the project.

-We don't think the project will have any negative impacts on the neighborhood.

We have known Marilyn and Jeff since they moved into the house in 1987 and we would much rather have them live in the house than move somewhere else and rent out the house.

Thank you,

Mr. & Mrs. Virgil Emery.

Ms Decker:

My husband and I have lived at 600 50th Street for the last 11 years and have kept a close eye on any changes going on in the neighborhood. We have a very close neighborhood group in our area.

We have recently been made aware that there are some concerns about the renovations to be made at a home directly across from us on F street owned by Marilyn & Jeff Bryant, specifically the location of the garage.

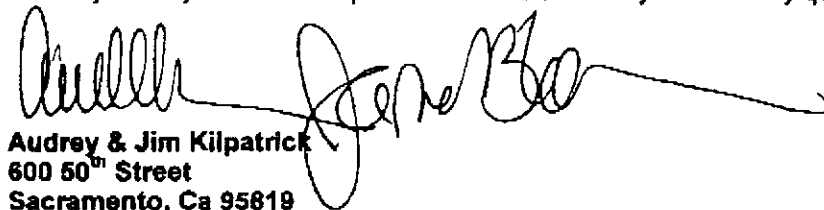

Marilyn and Jeff started talking to us about their plans about a year ago and wanted our input in the changes that they were going to make to their house since we live directly across from them and would be looking at it every day. We were very pleased with the designs and thought that it was commendable that they wanted to stay with the original design of the house. We also have seen the design of the garage (to be moved to another location on the property) and thought that it fit well.

- We, as with Marilyn and Jeff, live on a corner lot and it presents challenges when trying to come up with a way to add some more living space, keep with the uniqueness of the neighborhood houses and not infringe on our neighbors space. We are being faced with the challenge of needing more living space for a growing family and wanting to stay in such a unique and cherished area. The driveway and garage areas are always a challenge on corner lots and we think that the way that they have designed it will not have any negative impact on the neighborhood or the neighbor that live next to their proposed garage, as their house also has a garage there and there would not be a problem with restricting view from windows as there are none in that area.

As a neighbor in East Sacramento, we have been always mindful and concerned that our houses are occupied and owned and not rented. We like to see our neighbors stay in the area and update their homes instead of moving out to gain more room and leaving a tenant to potentially not maintain the property. We do not want to see contractors buy up our houses, tear them down and put up new home designs that don't keep with the designs of East Sacramento. The changes that Marilyn and Jeff are making are keeping with the original designs of the home.

Again I would like to let you know that we have seen the full plans and are very much in support of the project. We do not see any negative impact on the neighborhood and, in fact, see this as an enhancement to an area that is very special to our neighbors and us.

Thank you for your time and please feel free to call if you have any questions.
