Whirlpool Corporation

October 29, 2001

To Whom It May Concern:

Whirlpool Corporation has announced in conjunction with the Consumer Products Safety Commission a voluntary recall of 1.8 million microwave/hood products. The effected models date from 1998 through 2001. This recall is the result of a malfunction that could lead to a fire within the home.

In order to provide our builder customers the ability to close their homes. We have suggested they allow us to install a range hood and a countertop microwave until such time as we have new production on the effected models that meet and exceed the new codes identified by Whirlpool and the CPSC. We expect the new microwave/hood units to be produced, and installed, before the end of December. However, this may stretch through January of 2002. There is no expectation that it will continue beyond that time.

Because our microwave/hood units all are installed with a power cord we are suggesting the temporary range hood be installed in the same fashion. This will provide the least amount of disruption for both the homeowner and the builders involved.

This process has been presented to, and is supported by, the Consumer Product Safety Commission. If you have any questions regarding this please contact me at 1-800-446-2574 ext. 1266.
