**OWNER-BUILDER DECLARATION:** I hereby affirm under penalty of perjury that I am exempt from the contractors License Law for the following reason (Sec. 7031.5, Business and Professions Code) any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he or she is licensed pursuant to the provisions of the Contractors License Law (Chapter 9 commencing with Section 7000) of Division 8 of the Business and Professions Code) or that he or she is exempt therefrom and the basis for the alleged exemption. Any violation of Section 7031.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500.00).

I, as a owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code). The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who does such work himself or herself or through his/her own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he/she did not build or improve for the purpose of sale.

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7044, Business and Professions Code). The Contractors License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractors License Law.

Re: Collector Truss Connection to Wall Top Plate  
 Plan 3540 on Home Site 43: Westlake Subdivision  
 O'Connor Freeman Job Number: E001007

Dear Jim:

You contacted our office regarding the DSC4 connector strap between the rear wall top plate and the collector truss. Specifically, the Building Inspector discovered the SDS fasteners were hammered into place and not screwed into place intended. Due to the improper installation of the DSC4 connector, the Building Inspector wanted our office to provide a letter with an engineered fix for this situation.

In response to this request, we have reviewed the plans and structural calculations and determined a MST48 strap installed at a slight angle from the wall top plate to the bottom of the roof girder truss would be more than adequate to resist the applied lateral loads. See the attached partial plan exhibit for reference and review.

Make sure the two original wet stamped and signed copies of this letter are submitted to the Building Inspector or Building Department for review and approval. If you should have any further questions or comments please do not hesitate to call.

Sincerely,

O'Connor Freeman & Associates, Inc.
