Description/Analysis

Issue: The City of Sacramento has a need to hire qualified, customer service oriented personnel to carry out assigned responsibilities in a professional and efficient manner. Temporary employees are used when no hiring lists are available, for short-term emergencies, and for special projects requiring additional staff. The companies selected will be able to provide quality workers at a fair price.

Policy Considerations: The evaluation and selection process implemented to procure temporary employment services is consistent with City purchasing policies.

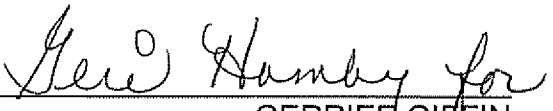

Environmental Considerations: None

Commission/Committee Action: None

Rationale for Recommendation: It is more cost effective to use temporary agencies to provide employees for short-term emergencies. A pool of temporary workers requires constant recruitment, advertising, and training of staff that will be used for a limited period of time.

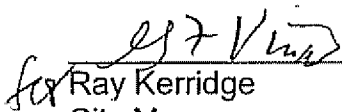

Financial Considerations: The funding for temporary employment services is included in each department's operating budget. The total annual cost of temporary employment for fiscal year 2005-2006 was approximately \$1.8 million. The contracts with Barnes Personnel, Pacific Staffing, and SearchPros Staffing are for a period of one year in an amount not to exceed \$600,000 each, with a potential to renew the contracts for an additional two years in an amount not to exceed \$600,000 each. Human Resources referrals to City departments for temporary employment services will be distributed between the three named agencies.

Emerging Small Business Development (ESBD): Three of the eighteen responses were certified by the Office of Emerging and Small Business Development (ESBD) as small business enterprises. Two of the three agencies selected, Pacific Staffing and SearchPros Staffing, are certified as small businesses.

Attachment 1 Background

On September 1, 2006, City staff released a Request for Proposals for Temporary Employment Services (RFP). The City of Sacramento received eighteen (18) proposals from employment agencies. A team of Human Resources personnel comprised of representatives of Employment and Classification and Support Services rated the proposals. The team evaluated for competitive rate bids as well as an assurance of quality personnel that could be placed in a timely manner.

Staff recommends that the contracts be awarded to Barnes Personnel in an amount not to exceed \$600,000; Pacific Staffing in an amount not to exceed \$600,000; and to SearchPros Staffing in an amount not to exceed \$600,000, for a combined total amount not to exceed \$1,800,000 per year.

In the past, the City used a pool of temporary workers to fulfill the needs that departments had for employees for a limited duration. The pool required constant advertising, recruitment and training of the pool of workers because the employees in the temporary pool would find permanent placements. It was determined that it would be more cost effective to use a temporary agency to fulfill the City's need for qualified, well trained personnel for these short-term placements.
