August 3, 1993

Item #2

Height of Building: one story (existing), two story (proposed)  
 Exterior Building Materials: stucco, brick, wood

Additional Information: The applicant is requesting a special permit to allow the vertical extension of the existing side wall of a house which is a non-conforming structure because it falls within the current five foot setback. The extension would allow the addition of a second floor to the residence. The existing minimum side yard setback along the west property line is 3'4". The driveway of the property to the west is located adjacent to the proposed addition. A letter in support of the applicant's request from the adjacent property owner to the west (Mr. Owen) was received by the Planning Division (Exhibit H).

Project Plans: See Exhibits A through G.

Environmental Determination:

This project will not have a significant effect on the environment and is exempt from environmental review pursuant to State EIR Guidelines (California Environmental Quality Act, Section 15301(e)).

Conditions of Approval:

1. Building materials shall be compatible with the exterior materials of the existing residence.
2. The location and square footage of the addition shall substantially conform to the plans submitted.
3. The applicant shall obtain all necessary building permits prior to the construction of the addition.

Findings of Fact:

1. The project, as conditioned, is based upon sound principle of land use in that:
  - a. the existing side yard setback on the west property line is 3'4"; and
  - b. the proposed addition will not substantially alter the characteristics of the site or the surrounding neighborhood.

2. The project will not be detrimental to the public health, safety or welfare, nor result in the creation of a nuisance in that:
  - a. the proposed addition does not effect access to the rear yard of the property; and
  - b. the proposed design of the addition is compatible with the existing residence and surrounding residential uses which consist of one and two story single family residences.
3. The project is consistent with the General Plan which designates the site for Low Density Residential uses.

If no building permit is required, the use shall be deemed established when the activity permitted has been commenced.

The decision of the Zoning Administrator may be appealed to the Planning Commission. An appeal must be filed within 10 days of the Zoning Administrator's hearing. If an appeal is not filed, the action of the Zoning Administrator is final.
