Traffic Signal Modification (PN:TG66)  
~~November 8, 1993~~

**SUMMARY:**

This project involves the modification of an existing traffic signal at the intersection of Florin Road and Freeport Boulevard. The modifications include street reconstruction and widening, construction of a handicap ramp, installation of a fire alarm pre-emption for emergency vehicle traffic along Freeport Boulevard and construction of miscellaneous curb, gutter, and sidewalk.

This report recommends that a Cooperative Agreement with Caltrans be approved which describes the State/City cost sharing and project management and construction responsibilities for this project. It also recommends that \$30,000 in Caltrans funds be appropriated to the project towards construction and contract administration.

Plans and specifications for the Freeport Boulevard and Florin Road Traffic Signal Modification (PN:TG66) project have been prepared. Approval of the plans and specifications and authorization to advertise for bids is recommended.

**COMMITTEE/COMMISSION ACTION:**

None.

**BACKGROUND INFORMATION:**

This project involves the modification of an existing traffic signal at the intersection of Florin Road and Freeport Boulevard. The modifications include street reconstruction and widening, slurry sealing of the street, regrading ditch embankments, construction of a handicap ramp; installation of a fire alarm pre-emption for emergency vehicle traffic along Freeport Boulevard; and construction of miscellaneous curb, gutter, and sidewalk.

The modifications include adding a dual left turn pocket to facilitate the movement of traffic from south to east through this intersection, which will alleviate traffic congestion.

Under a cooperative agreement with Caltrans, the state will pay \$30,000 towards the construction and contract administration of the project.

A Categorical Exemption for the Freeport Boulevard and Florin Road Traffic Signal Modification (PN:TG66) project was filed with the County Recorder of the County of Sacramento on September 6, 1991. Estimated completion date for the project is July 29, 1994.

A non-refundable fee of \$25.00 will be charged for each set of plans and specifications to cover reproduction costs.

**POLICY CONSIDERATIONS:**

This action is consistent with Title 58, Chapter 58.03.301 of the City Code concerning advertisement for bids and Resolution No. 93-149 relating to MBE/WBE participation goals and policies adopted by the City Council on March 30, 1993, and existing City policy concerning cooperative agreements for capital improvement projects.
