March 5, 1986

Transportation and Community Development Committee
Sacramento, California

Honorable Members in Session:

SUBJECT: STATUS OF LEVEES

SUMMARY

The Committee has asked for a report on the status of the levees protecting the City. The major levees protecting the City are under the jurisdiction of the City, the State Department of Water Resources, the American River Flood Control District, Reclamation District 1000, and, to some extent, the U. S. Army Corps of Engineers. Actually, the City is responsible only for the Sacramento River levee from Discovery Park to Sutterville Road. Consequently, a report on the status of the entire levee system will require extensive input from these other agencies. A staff member has been assigned to prepare the report, and it is estimated that it will take six weeks to complete.

RECOMMENDATION

This report is submitted for Committee information. The full report on the levee system should be available the first part of May.

Respectfully submitted,
Melvin H. Johnson
MELVIN H. JOHNSON
Director of Public Works

Approved for Committee Information:

Solon Wisham Jr.
SOLON WISHAM, JR.
Assistant City Manager

MHJ:mln

2. David Boggs, the Sacramento Regional Transit Agency General Manager, is preparing this report. It will be distributed on Friday, March 7, 1986.
