Description/Analysis

Issue: The property owners of Great Egret Court have applied to vacate the Public Access Easement (PAE) located between the most northern end of Great Egret Court and the Atrium Court Apartments. The applicants have filed for a Minor Modification to the approved special permit for Atrium Court Apartments which allowed a pedestrian connection to Great Egret Court. The applicant has requested this vacation in response to the criminal activity and loitering that has filtered over from the adjacent apartment complex. (See Attachment 2, Page 6)

A summary of the project's history is included in Attachment 1, Page 4.

Policy Considerations: The Council action recommended in this report is consistent with the City's Strategic Plan to promote and support economic vitality and is in compliance with the State of California, Streets and Highways Code, Section 8310- 8325 that provides the procedure for the vacation of streets, alleys, and easements.

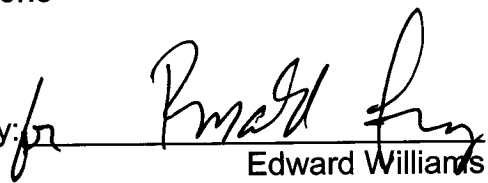

Committee/Commission Action: The City Planning Division has reviewed and determined that the vacation of the subject PAE is consistent with the City's General Plan in promoting safety and livability while maintaining the quality and character of residential neighborhoods.

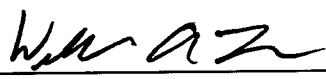

Environmental Considerations: The Environmental Planning Services section of the Development Services Department has reviewed the previously described PAE for vacation, and has determined that it is exempt under the provisions of the California Environmental Quality Act (CEQA) under Section 15061(b)(3) of the CEQA guidelines. Exempt projects that fall under Section 15061(b)(3) are determined to have no significant effect on the environment. Any future development of the property must comply with all regulatory requirements.

Rationale for Recommendation: The subject PAE has created a nuisance for the property owners of Great Egret Court and vacating the PAE will give the property some relief from future crimes being committed on and around their properties.

Financial Considerations: The cost of this vacation will be calculated by the Development Engineering Department. This cost will be reimbursed by a discretionary fund from Council District One. Any additional costs not associated with the vacation process will be the responsibility of the applicant.

Emerging Small Business Development (ESBD): None

Background

The Vacation of the Public Access Easement at Great Egret Court

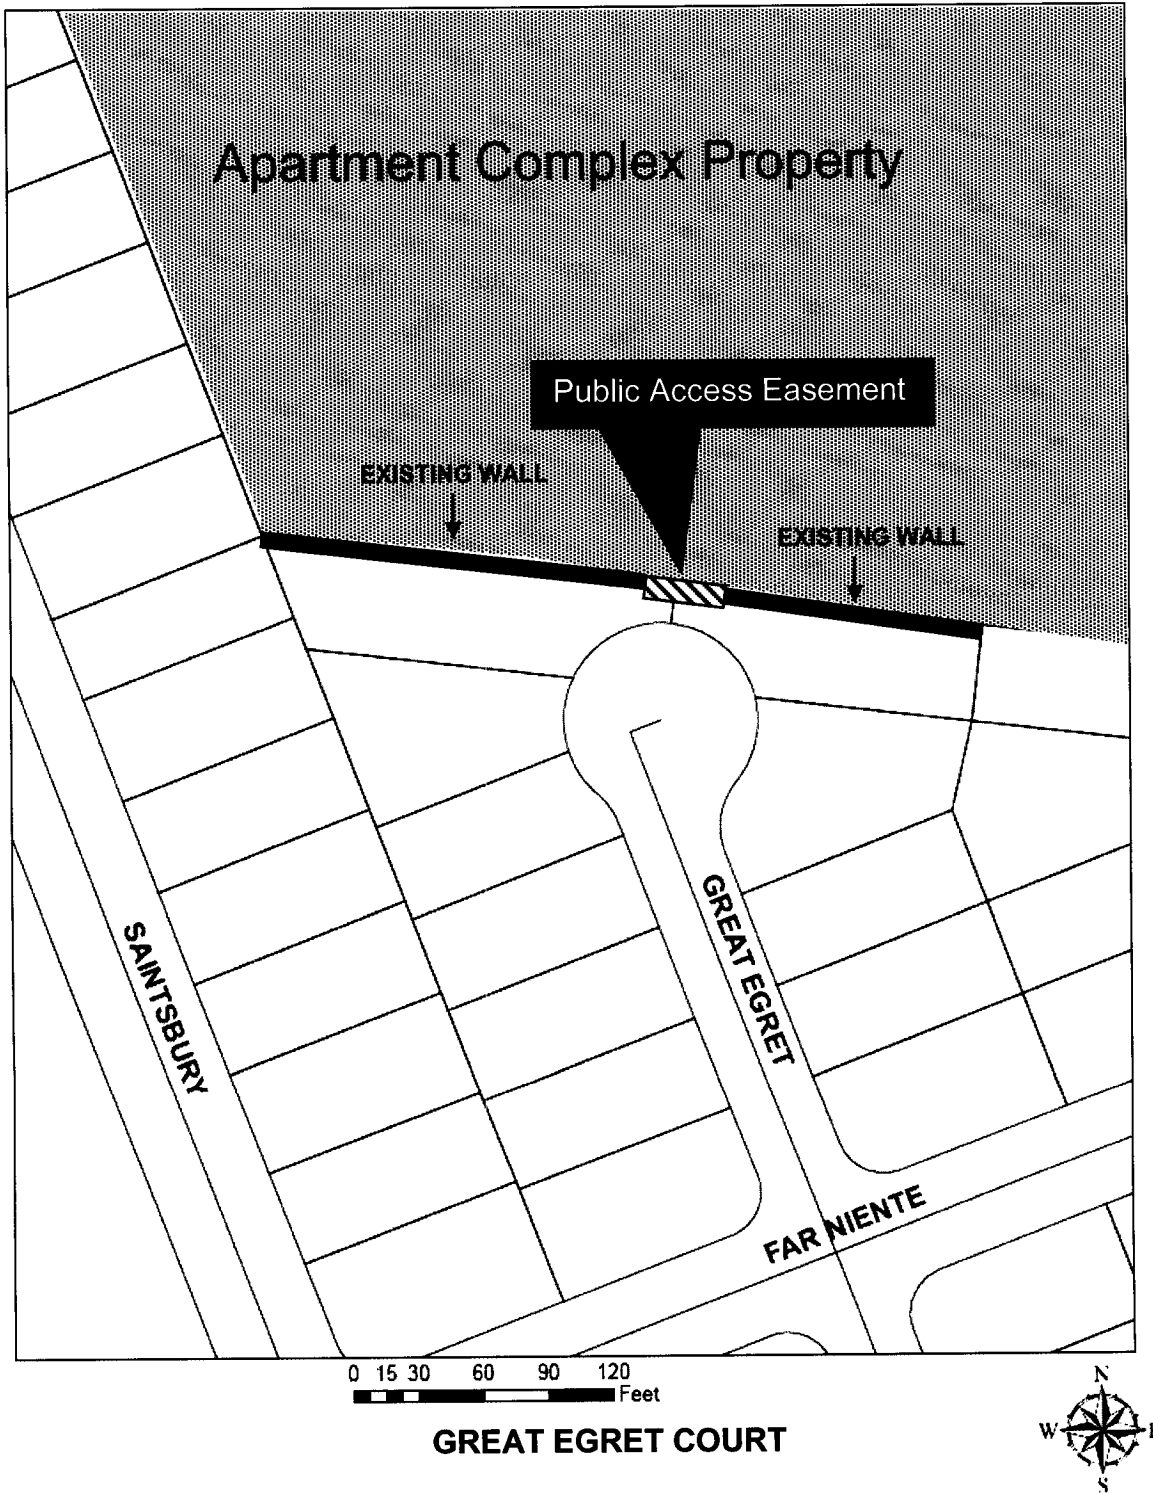

The property owners that live within the area of Great Egret Court has requested this vacation of the subject PAE. The subject PAE is 40 feet long and located at the most northern end of Great Egret Court adjacent to the Atrium Court Apartments. This area of the subject PAE lies within two parcels; assessor parcel numbers 225-2000-044(Lot 44) and 225-2000-045(Lot 45). This PAE was put in place for the benefit of the apartment complex as a pedestrian and bicycle ingress and egress connection to Great Egret Court. This access allows an easier access to the park and school west of the apartment complex.

Currently all of the easement excluding 20 feet has a wall separating the apartment complex and the two parcels on Great Egret Court. The 20 feet is currently open and has no obstacles or restrictions and is easily accessible for pedestrians and bicyclist. Bollards were placed to restrict vehicular traffic but have been taken out without consent from the adjacent property owners or the City of Sacramento. The removal of these bollards has allowed illegal access by motorized vehicles to pass through this PAE. The properties owners that live on Great Egret Court believe that this unrestricted accessibility between the apartment complex and their properties on Great Egret Court has lead to many of the reported crimes within their neighborhood. (See Attachment 3, Page 6)

Once this PAE is vacated a continuation of the adjacent wall between the properties will be constructed with the same materials to the same specifications in the current open space within this easement. The property owners along Great Egret Court have notified Development Engineering Department that Beck Properties will be constructing the wall within the easement area once the PAE has been vacated.

Staff finds that this request for vacation is in conformance with the State of California Streets and Highways Code (S&HC) Sections 8310-8325. Staff recommends that the City Council approve this vacation request. Various City agencies and utility companies reviewed and support this vacation. In addition the City Clerk is directed to publish the Notice of Hearing of the proposed vacation, and the Notice of Hearing has been posted at the subject PAE site as required by law pursuant to Streets and Highways Code Sections 8222 and 8223 respectively.
