The Sewer Facility Impact Fees to connect an existing Shell Service Station and a new car wash to public sewer are as follows:

Inspection (City of Sacramento)	\$0
CSD-1 Fee	\$2,100
SRCSD Fee	\$10,664
In-Lieu Fee (200 feet x \$12/foot)	\$2,400
	<u>\$15,164</u>

Calculation is based on 0.83 net acres. The public sewer line is to the west of this site. It was built with the Home Depot development. At that time the service from the main was also built, including the cleanout at the easement line.

*This fee is due and payable at 827 Seventh Street, Room 105.
This fee is also subject to adjustment if the data supplied is changed.*

Subject: SPECIAL OBSERVATIONS, INSPECTIONS AND TESTING AGREEMENT

To Whom It May Concern:

I would like to take this opportunity to inform you that Madison Industries fabrication shop will be fabricating as per the approved permit drawings, the sheetmetal and steel components for this project. We are an approved fabricator shop since 1947 of the City of Los Angeles and this fact, if approved by the local jurisdiction building official, eliminates the need for special inspection under 1994 UBC section 1701.5 subsection 5.1 exception no.1 and section 1701.7. In regards to the field structural erection, no field welding will be necessary on this project. All connections are bolted (non-high strength), requiring only ordinary local city inspections as per Section 108 of the 1994 Uniform Building Code and approved construction drawings.

STRUCTURAL OBSERVATION- UBC Section 1702

Unless specifically required by the local jurisdiction's building official or specified on permit plans, field structural observation is not required as per below listed reasons:

- a. This type of structure is not defined in table 16-K as Occupancy category I, II or III.
- b. This type of structure is not required to comply with Section 403.

(section 403 applies to Group B office buildings and Group R Division 1 Occupancies.)

- c. Madison Industries' Engineer of Record waives the need for field structural observation (Construction/structural erection is done by Madison Industries' trained and experienced steel field erectors.)

For your reference, I have sent a copy of our Fabricators Certificate.

Sincerely,

TIM MODICA
Engineering Manager
