East:	Commercial, C-2
West:	Residential, R-1
Average Lot Size:	.15 acre
Street Improvements:	Existing
School District:	Sacramento City Unified School District
Topography:	Flat
Utilities:	Available to site

SUBDIVISION REVIEW COMMITTEE RECOMMENDATION: On April 23, 1980, the Subdivision Review Committee recommended approval of the Tentative Map subject to the following conditions:

1. Applicant shall place a note on the map stating that water and sewer service connections do not exist between the main lines and the proposed parcels. These services must be provided at the time of obtaining building permits;
2. Water and sewer main service shall be extended to the parcels prior to the filing of the final map;
3. Applicant shall check with the City Collector to see if assessments are current and if not, pay off existing assessments.

STAFF EVALUATION: The applicant's proposal is to divide .45 vacant acres into 3 parcels of approximately .15 (6,500 sq. ft.) acres each. The applicant has stated that the owner is requesting this parcelization for the purposes of constructing duplexes on each of the parcels. The applicant did not submit plans to indicate the design of the units. Staff therefore suggests that the R designation be attached to the R-2 in order to allow review by the Planning Commission and staff in the future. This is necessary to insure that the proposed duplex structures are compatible with the surrounding neighborhood and uses.

Staff has no objection to the rezoning and parcelization because the proposed duplex units will be a compatible alnd use. Also, it is consistent with the policies of the General Plan.

003196

STAFF RECOMMENDATION: Staff recommends the following actions:

1. Ratification of the Negative Declaration.
2. Approval of the rezoning from R-3 to R-2-R.
3. The Tentative Map be approved subject to the following conditions:
 - a. Applicant shall place a note on the map stating that water and sewer service connections do not exist between the main lines and the proposed parcels. These service connections must be provided at the time of obtaining building permits.
 - b. Water and sewer main services shall be extended to the parcels prior to the filing of the final map.
 - c. Applicant shall check with the Collector to see if assessments are current and if not, they shall be paid prior to recordation of final map.
