Honorable Members in Session:

SUBJECT: DEFUNDING CAPITAL IMPROVEMENT PROJECTS AND APPROPRIATING FUNDS TO COVER  
OVER-EXPENDITURES OF COMPLETED CAPITAL IMPROVEMENT PROJECTS

**SUMMARY**

This report recommends that certain approved Capital Improvement Projects be defunded and that the unexpended amounts be returned to the appropriate contingency funds. It is further recommended the Budget and Finance Committee recommend approval of the additional appropriations to cover over-expenditures in completed projects. These activities are necessary so that all of the projects can be closed and removed from the accounting systems.

**BACKGROUND**

During the preparation of the Capital Improvement Budget for 1989-90, staff reviewed all currently approved Public Works projects. It was determined that certain projects should be defunded for a variety of reasons. The following list provides a project description and the reason for defunding and cancelling each project.

**PROJECTS FOR DEFUNDING**

35th Avenue Landscape and Parking Lot (WA81)

This project provided \$21,000 of drainage bond funds to landscape along 35th Avenue from the railroad tracks to Corti Brothers Courtyard's parking lot and also provided 250 parking spaces at the west end of the strip. This project is being defunded by \$16,335 as the work was completed by City crews.

Landscape/Paving Sump 132 and 136 (XA81)

This project provided \$20,000 of sewer funds to pave and landscape street frontage areas at two pumping stations to prevent soil erosion and to maintain residential amenities. This project is being defunded by \$20,000 as the work was completed by City crews.

Reconstruct Trash Rack Sump 34D (WB96)

This project provided \$125,000 of drainage funds to replace an inadequate trash rack at Sump 34D located on Freeport Boulevard. This project is being defunded by \$123,113 pending satisfactory usage of a similar rack currently being installed at Sump 154.

Reconstruct Sewers N, R and S (PW - XA26)

This project is virtually complete and has a balance of \$1,333,000. A majority of the work in this project has been completed by developers of infill projects. At this time, \$170,000 is recommended for defunding.

Replacement of Animal Control Shelter (PS - GA06)

Debt for this project will not be issued in current fiscal year. Therefore, the project must be defunded (\$1,849,000). The project is scheduled for review by Council in August 1989. At that time, the appropriate debt will be appropriated.

East End Garage Project (PW - VA66)

This project will not start construction in the current year. Therefore, the project must be defunded (\$13,554,000). The project is scheduled for review by Council in 1989-90. At that time, the appropriate debt will be appropriated.

APPROPRIATION TO COVER OVER-EXPENDITURES

The below list of Capital Improvement Projects have all been completed and accepted by City Council; however, additional funding is needed to close the projects. The over-expenditures are primarily due to the difference between the amount budgeted for indirect labor costs and the amount expended. In all cases, the budget was prepared prior to the passage of the new rate structure for indirect costs.

<u>PROJECT</u>	<u>OVER-EXPENDITURE</u>	<u>FUND</u>
Lot E Maintenance Shop and Office (VB86)	\$ 32,045.92	Fund 412 - Parking
Meadowview/21st Street Signal (SB51)	\$ 12,811.25	Fund 209 - Major Street
Del Paso/Evergreen Signal (SB16)	\$ 20,118.94	Fund 209 - Major Street
W. McClellan Infrastructure Study (XB41)	\$ 20,990.91	Fund 414 - Sewer
Landfill Operator Dispatch Office (YA16)	\$ 18,173.79	Fund 415 - Solid Waste

FINANCIAL

The remaining available funds for 35th Avenue Landscape and Parking Lot, Landscape/Paving Sump 132 and 136, and Reconstruct Trash Racks Sump 34D, will be returned to their respective contingency funds (Storm Drain Fund \$123,112.41, Storm Drain Bond Fund \$16,334.73, and Sewer Fund \$190,000). In addition, it will be necessary to appropriate \$32,046 from Parking Contingency Reserve, which has a fund balance of \$752,936; \$32,930 from Major Street Contingency Reserve, which has a fund balance of \$113,308; \$18,174 from Solid Waste Contingency Reserve, which has a fund balance of \$3,986,606; and \$20,991 from Sewer Contingency Reserve, which has a fund balance of \$695,653, to cover the overages described above. The contingency fund balances are as of June 15, 1989.

The table below provides a recap, by fund, of the financial transactions explained above. The over-expenditures are enclosed with brackets <>. If the total of a fund is in brackets, that amount must be appropriated from contingency. If the total is positive, the funds will be added to contingency.
