Description/Analysis

Issue: The Sacramento Fire Department has prepared a list of City parcels that have not been maintained free of weeds and rubbish in accordance with Government Code §39561. The City Council on February 23, 2010 by Resolution No. 2010-088 set a public hearing for March 16, 2010, at 6:00p.m., in the Chambers of the Sacramento City Council to hear and consider all objections to the proposed abatement of weeds and rubbish from various parcels of property situated within the City of Sacramento and more particularly described in Exhibit A of the Resolution. All property owners of affected parcels (see Attachment 1, i.e., Exhibit A) were mailed a notice on March 1, 2010, of said public hearing in accordance with Government Code §39567 and §39567.1. Provided there are no objections, staff recommends that the City Council adopt the attached resolution authorizing the abatement of weeds, rubbish and/or dirt

pursuant to Government Code §39560 et seq. to eliminate hazards to the health, safety and well-being of the citizens of the City of Sacramento. In the event there are unresolved objections, staff recommends that Council close the hearing, and direct staff to prepare a resolution, including finding of facts to be presented to City Council on April 1, 2010.

Policy Considerations: Government Code §39568, §29569, and §39570 authorizes the legislative body (i.e., City Council) to consider all objections to the proposed removal of weeds and rubbish, and ruling over objections.

Environmental Considerations:

California Environmental Quality Act (CEQA): In the event the Weed Abatement Officer detects a potentially sensitive area, the condition will be reported to the Environmental Services Division for direction and to be compliant to CEQA. Abatement will be suspended at that location until instruction is provided. This process is similar to the approach taken when potentially hazardous materials are located at an abatement site.

Sustainability Considerations: There are no sustainability considerations as listed in the Sustainability Master Plan applicable to holding a public hearing to listen to and rule over any objections from property owners in regards to any possible weed and rubbish abatement on their property.

Commission/Committee Action: None.

Rationale for Recommendation: The Sacramento City Fire Department requests a public hearing be held to consider objections of weed and rubbish abatement pursuant to Government Code §39568, §39569, and §39570 to eliminate hazards to the health, safety, and well-being of the citizens of the City of Sacramento. Property owners can object to the abatement of weeds and rubbish via phone, email, and mail as well as during the public hearing, as stated on the notices sent. Consideration will be given to all objections, and consistency will be exercised in coming to a determination.

Financial Considerations: The City anticipates the need to abate weeds and rubbish on approximately 7,823 parcels due to lack of abatement by owners of said parcels. The cost of said abatement in addition to a \$100 administration fee per parcel is a personal obligation of the property owner. Delinquency of payment will result in a lien against the property. This program recovers all costs through billing, penalties, and liens of negligent properties.

Emerging Small Business Development (ESBD): No goods and services are being purchased as a result of this resolution.

Background

On February 23, 2010, the City Council passed Resolution No. 2010 -088, declaring that certain specified parcels of property in the City of Sacramento have noxious or dangerous weeds, rubbish, refuse, and/or dirt which constitute public nuisances, and setting March 16, 2010, for a public hearing to hear and consider any objections to the proposed abatement of weeds, rubbish, refuse, and dirt. Property owners of parcels to be abated have been notified by mail of this public hearing.

The weed abatement program was initiated on July 10, 1969, and has been in effect since the City of Sacramento first adopted the standards for weed and rubbish abatement. A database was created comprised of the hereinafter described real property in the City of Sacramento that was covered by weeds, rubbish, refuse, and dirt; and said weeds, rubbish, refuse, and dirt that constituted a hazard to the health, safety, and well-being of the citizens of the City of Sacramento. Routine inspections made by the Fire Prevention Officers as requested ensure that the described real property has been added to our database and/or is eliminated from our database when the property no longer constitutes a potential hazard to the health, safety, and well-being of the citizens of the City of Sacramento.

Presently 7,823 weed and rubbish abatement notifications go out to parcel owners. Of those approximately 900 will require abatement by the City of Sacramento due to lack of abatement by parcel owner. The real property on which said nuisances exist is on file at the Sacramento Fire Department, 5770 Freeport Blvd., Suite 200, Sacramento, CA 95822, and the office of the City Clerk, in Historic City Hall at 915 I Street, 1st floor, Sacramento, CA 95814.

An invoice will be issued by the City of Sacramento for abatement at the completion of the weed abatement season. Non-payment may result in the cost of the abatement being placed as a lien against the property.
