ITEM 1

Height of Building: One story
Topography: Flat
Street Improvements: Existing

Project Plans: See Exhibits A-E

Previous Files: P94-017, P95-003, Z99-009

Background Information: On July 14, 1999, the Planning Commission approved several entitlements including a special permit to allow a 42 tee driving range(P94-017). Any additions to an existing special permit requires a modification of the original special permit.

Additional Information: The applicant is requesting to serve beer from the deli to the patrons of the driving range. The applicant does not intend to serve any other alcoholic beverage or sell beer for off-site consumption. The Police Department reviewed the request and has no objections to the sale of beer at the site.

The project has been noticed and staff has not received any calls.

Environmental Determination: This project will not have a significant effect on the environment and is exempt from environmental review pursuant to State EIR Guidelines {California Environmental Quality Act, Section 15301}.

Conditions of Approval

1. All beer sold shall be consumed on the premises. Beer shall only be consumed during regular business hours of the driving range (or less if greater hour restrictions is place on the liquor license). There shall be beer sold for off-site consumption.
2. Any other changes or additions shall require additional Planning review and approval.

Findings of Fact:

1. The proposed project, as conditioned, is based upon sound principles of land use in that the proposed modification will not substantially alter the characteristics of the site or the surrounding residential neighborhood.
2. Granting the request will not be injurious to public health, safety, or welfare nor result in a nuisance in that:
 - a. beer will only be sold for on-site consumption;
 - b. beer will only be sold during the driving range operating hours; and

- c. no other types of alcohol will be sold.
- 3. The project is consistent with the General Plan and North Sacramento Community Plan which designate the subject site as Industrial Employee Intensive and Labor Intensive respectively.

Joy D. Patterson
Zoning Administrator

A use for which a Special Permit is granted must be established within two years after such permit is approved. If such use is not so established the Special Permit shall be deemed to have expired and shall be null and void. A Special Permit use which requires a Building Permit shall be deemed established when such Building Permit is secured and construction thereunder physically commenced. If no building permit is required, the use shall be deemed established when the activity permitted has been commenced.

The decision of the Zoning Administrator may be appealed to the Planning Commission. An appeal must be filed within 10 days of the Zoning Administrator's hearing. If an appeal is not filed, the action of the Zoning Administrator is final.
