**Subject: Final Report  
Construction Materials Testing and Special Inspection Services  
CSAA Total Car Care Plus  
Sacramento, California**

Dear Mr. Woods:

During construction of the subject project, personnel of our firm have provided special inspection services in general conformance with Section 1701 of the Uniform Building Code. These construction observation services were performed from May 1, 2000 through February 26, 2001. The scope of our services consisted of testing and observation of the following items:

- **Reinforcing Steel**
- **Cast-in-place Concrete**
- **Epoxied Reinforcing Dowels**
- **Structural Masonry**
- **Field Structural Steel Welding**

Based on the construction observations and testing of our representatives, it is our opinion the work observed requiring special inspection was, to the best of our inspector's knowledge, in conformance with the approved plans and specifications. Our services did not include architectural detailing observations such as dimensioning, color, fit, or finish.

We have performed our services in a manner consistent with the level of care and skill ordinarily exercised by inspection firms practicing in the same locality under similar conditions. No other representation, expressed or implied, and no warranty or guarantee is included or intended. Our services have been completed within the responsibilities, authority, and legal protection of an agency Deputy Inspector.

If you have any questions regarding the contents of this report or require additional information, please contact this office.

Sincerely,

**KLEINFELDER, INC.**
