### **Description/Analysis**

**Issue:** The North Natomas Community Development Fund (fund 280) was not budgeted through the regular budget process for the current fiscal year, Fiscal Year 2006/07. This report appropriates \$250,000 from the North Natomas Development Fees to fund the projected North Natomas administrative expenditures for Fiscal Year 2006/07.

**Commission/Committee Action:** None.

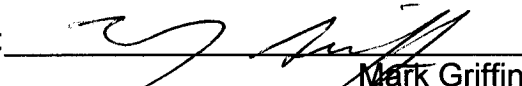

**Rationale for Recommendation:** The actions in the recommended Resolution makes adjustments to the Fiscal Year 2006/07 budget, therefore these actions are required to occur before July 1, 2007 (the end of Fiscal Year 2006/07). In

addition, these adjustments equal an amount greater than \$100,000 which requires Council approval.

**Financial Considerations:** There is no impact on the General Fund. The North Natomas Financing Plan is a development fee supported plan to construct North Natomas public infrastructure, acquire public right-of-way, and provide mitigation and other related programs. All revenues and expenditures are accounted for in the North Natomas Community Development Fund, Fund 780. Sufficient appropriations exist in the Contingency account of Fund 780 to fund the \$250,000 of this request as follows:

## **BACKGROUND**

The North Natomas Financing Plan (the "Plan") is a development fee supported plan to construct North Natomas public infrastructure, acquire public right-of-way, and provide mitigation and other related programs. Fees collected must be appropriated for designated Plan purposes.

Most appropriations in the Plan are capital outlay and are programmed through the City's Capital Improvement Program. There are also administrative components to the Plan, which are funded through periodic requests to Council. The recommendation before you is such a request.

The administrative components of the Plan include consultants for: all matters affecting the Plan; direct and indirect overhead under the City's Indirect Cost Plan; program support to the North Natomas Transportation Management Association ("TMA"); and other miscellaneous costs. The current request is to support general administrative expenditures for consultants and staff support to the fee program (\$250,000). This amount is for customary services in support of the Plan and includes no new or expanded services.
