Attachment 1**Background**

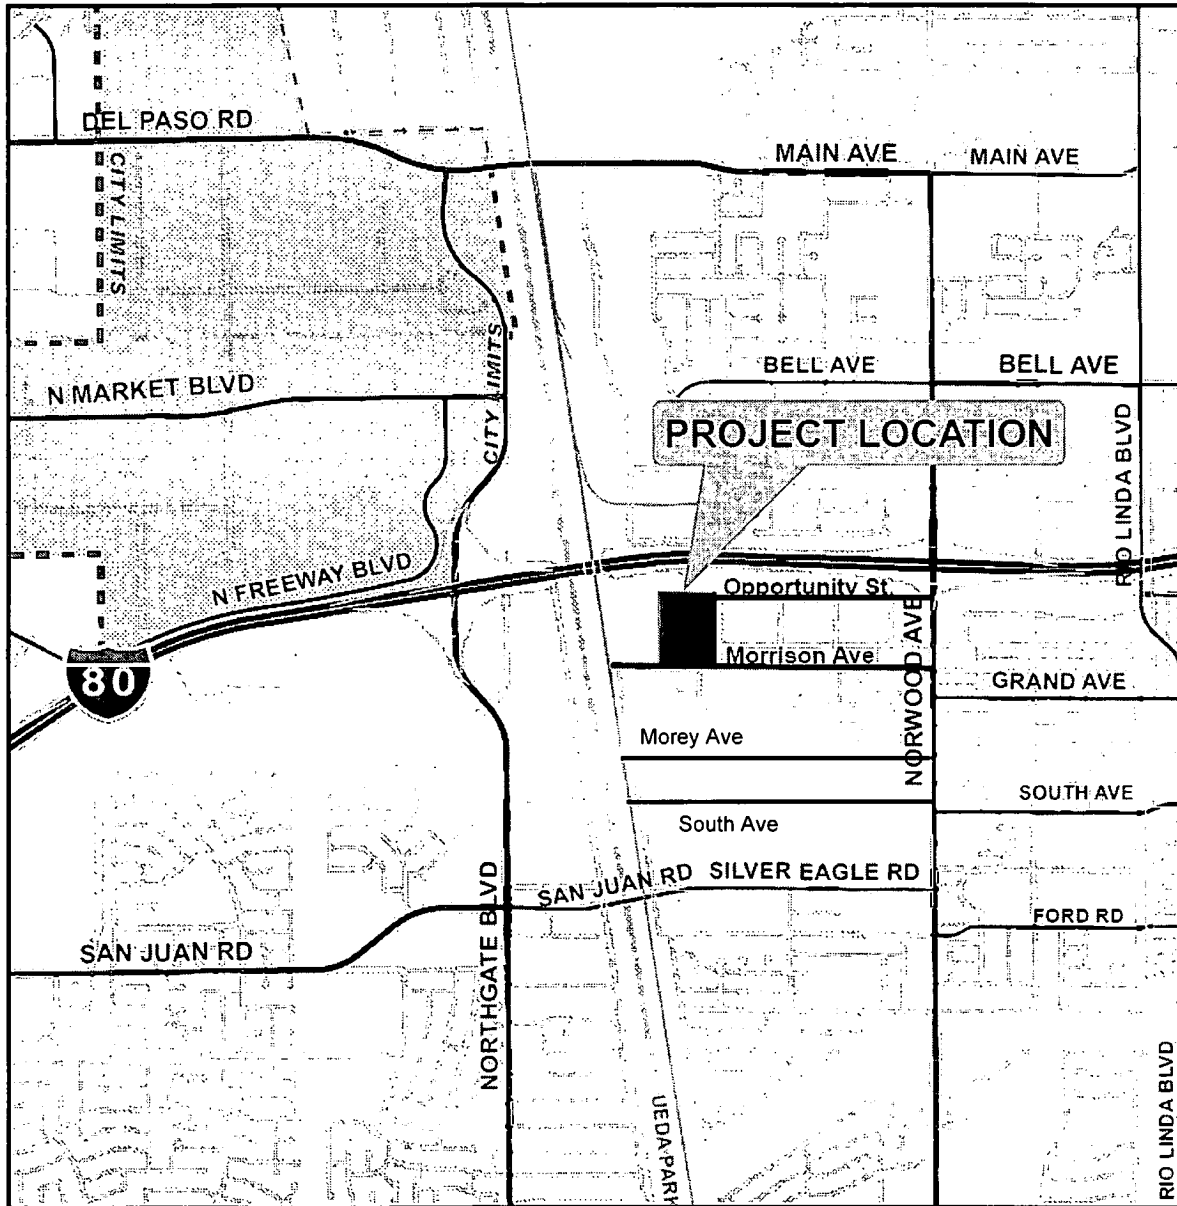

JTS Engineering on behalf of Penske Trucking, the property owner of 53 Morrison, has requested the vacation of the IOD and the vacation of the PUE located at 53 Morrison. This request is made to complete conditions of planning entitlements (P04-193) for the development of the Penske Trucking regional office and truck rental facility. The applicant requesting the vacation of this subject IOD and PUE has submitted all documents required by the City of Sacramento's Department of Transportation to process this request.

Penske Trucking submitted a planning application to build a regional office and truck rental facility (P04-194). The vacation of the IOD and the PUE were conditions of its entitlements to develop. In addition, Penske Trucking was conditioned to make an irrevocable offer of dedication for a new 58 foot IOD approximately 200 feet north of the subject IOD and record with the Sacramento County Recorder's Office a new 20 foot PUE for an existing drainage line. The new IOD and new PUE will not have any structures built on or adjacent to them. The subject areas for the new IOD and new PUE are currently part of the Penske Trucking parking lot and driveway access. There are no plans to modify or change the current use within the subject area to be vacated.

The Department of Transportation is processing this request to complete the conditions of the Planning Entitlement (P04-194). A transition in which the applicant changed engineers to process this request and staff changes within the City of Sacramento led to a delay in the completion of this request to vacate.

This request to vacate the subject IOD and PUE will complete the conditions of the planning entitlements application for Penske Trucking. Various City departments and utility companies have reviewed this request and support the proposed vacation. If approved, the vacation of this subject area will be recorded after all conditions and fees have been satisfied.
