

# APPLICATION FOR PERMIT TO BUILD

12 N  
13 O.

Street No. 1414-17 Lot 8 1/2 x 10 1/2 Block 13 O.

Owner Wm. E. Schuster Address 1414-17

Architect \_\_\_\_\_ Address \_\_\_\_\_

Contractor Oerm Address \_\_\_\_\_

Kind of Building Frame or Log Dy

Foundation \_\_\_\_\_

Permit 1740
Date 11/4/25
District 1

Posts	Girder		Span		Mud Sills	
	1st Floor	2nd Floor	3rd Floor	4th Floor	5th Floor	6th Floor
Jolsts						
Max. Span	Asa Kitchenette		in the bath		Flors	
Bearing Partitions						
Non Bearing Partitions	Cell. Frame		1. Pot Still		Pound	
Story Height						
Outside Walls	Spon...		Cup		Gable Down	
Ceiling Joists	2x4s		Span		No Water	
Roof			Rafters			
Water Heater			Chimney			
Size of Building—Length			Width		Height	

It is hereby agreed that this building will be constructed in conformity with the Ordinances of the City of Sacramento and the Laws of the State of California.

ESTIMATED COST, \$ 1400

Wm. E. Schuster  
Owner or Owner's Representative.

Plans must be submitted

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that proper record-keeping is essential for transparency and accountability, particularly in the context of financial reporting and auditing. The text notes that incomplete or inaccurate records can lead to significant errors and misstatements, which may have legal and financial consequences for the organization.

2. The second part of the document addresses the challenges associated with data collection and analysis. It highlights that gathering comprehensive data from various sources can be a complex and time-consuming process. However, the benefits of having a complete and accurate dataset are substantial, as it allows for more informed decision-making and the identification of trends and patterns. The document suggests that investing in robust data management systems and processes is crucial for long-term success.

3. The third part of the document focuses on the importance of data security and privacy. In an era where data breaches are becoming increasingly common, organizations must implement strong security measures to protect their sensitive information. This includes using encryption, access controls, and regular security audits. Additionally, organizations must ensure that they are compliant with relevant data protection regulations, such as the General Data Protection Regulation (GDPR), to avoid legal penalties and maintain the trust of their customers and stakeholders.

4. The fourth part of the document discusses the role of technology in improving data management and analysis. It notes that advanced analytics tools and artificial intelligence (AI) can significantly enhance the efficiency and accuracy of data processing. These technologies can help organizations uncover hidden insights and make more data-driven decisions. However, the document also cautions that the adoption of new technologies should be done carefully, with a focus on ensuring that the systems are secure, reliable, and easy to use for the intended users.

5. The fifth part of the document concludes by emphasizing the need for a data-driven culture within an organization. It suggests that leadership should encourage employees to use data to inform their work and decisions. This involves providing training and resources to help employees develop their data literacy skills. By fostering a culture where data is valued and used effectively, organizations can gain a competitive advantage in the marketplace.
