Re: Greenfair Operation Breakthrough Project

Dear Mr. Bergounous:

This letter will acknowledge receipt of a letter from William F. Bolton, U.S. Department of Housing and Urban Development (HUD), dated April 24, 2001, sent to Joy Patterson, City of Sacramento Senior Planner. I am also in receipt of your letter dated May 4, 2001.

The City concurs in part, and respectfully disagrees in part, with that April 24th letter. In the end, however, the City concurs that zoning administrator approval is not necessary prior to issuance of a demolition permit.

To summarize, HUD has purchased fifty (50) units at the Greenfair Operation Breakthrough project located at 55th and Broadway in the City of Sacramento. Apparently, HUD has determined that repairs of the units are unfeasible, and that they should be demolished. And to do so, HUD seeks a demolition permit from the City of Sacramento.

As a general rule under Sacramento City Code ("SCC") § 15.44.020(D)(1), when a property owner seeks a demolition permit for a residential structure located within the City, zoning administrator approval is required, prior to issuance of a demolition permit.

Dexter Bergounous
Re: Greenfair Operation Breakthrough Project
May 8, 2001
Page 2

Apparently, HUD entered into a contract with a construction company for the demolition of the above-referenced units without knowledge of SCC § 15.44.020. And HUD hopes to avoid expending additional time and resources that would be necessary if zoning administrator approval were required prior to issuance of a demolition permit.

In addressing the application of SCC § 15.44.020, HUD offers three independent arguments for issuance of the demolition permit without requiring zoning administrator approval. First, zoning administrator approval is not required for the demolition of an immediately dangerous buildings. Second, sufficient facts exist for zoning administrator approval. Third, HUD owned property is exempt from the requirements of 15.44.020 because of the Supremacy Clause of the U.S. Constitution in the context of its power to handle and dispose of property under 12 U.S.C § 1710(g).

The three arguments offered by HUD are addressed in turn. For the reasons specified below, the City concurs with the third argument, in this narrow issue only, and it disagrees with the first and second arguments.

With respect to the first argument, while the buildings may in fact be immediately dangerous, there are no competent facts before the City to make that determination. As you likely are aware, SCC §15.44.020(D)(1)(d) provides that the "[d]emolition of immediately dangerous structures shall not be subject to the requirement of. . . zoning administrator approval.

In assessing the conditions that make a building immediately dangerous, that determination is a function for the building official or building inspectors of the City of Sacramento. (See SCC § 8.96.050(A), enclosed.) In support of the determination that the buildings in question are immediately dangerous, HUD relies upon a report apparently prepared by a private agency, Mariscal & Associates, who conducted an inspection of the units. That report has not been provided to the City's building official or building inspectors, and the units have not, to my knowledge, been inspected by said official or inspectors. Consequently, there are no facts before the City to make a determination as to what dangerous conditions, if any, may exist at the units.

Turning to HUD's second argument, once again, while facts may exist that ultimately support zoning administrator approval for issuance of the demolition permit, these facts are not yet before the City.

Examining HUD's third argument, the City concurs that HUD may be exempt from the requirements of 15.44.020 because of the Supremacy Clause of the U.S. Constitution in the context of its power to handle and dispose of property under 12 U.S.C. § 1710(g). Pursuant to 1710(g), the Secretary of HUD has the power to handle and dispose of property acquired by HUD under the mortgage insurance program.

As a well established rule, where the United States in carrying out one of its proper functions constructs buildings on land over which it does not have exclusive jurisdiction, it is not required to abide by local zoning ordinances. (See e.g. United States v. City of Philadelphia, 147 F.2d 291 (3rd Cir. 1945); United States v. City of Pittsburgh, 661 F.2d 783 (U.S.P.S. need not comply with county zoning regulations in constructing a post office on land owned or leased by the United States (9th Cir. 1981); see generally 57 Ops. Cal. Atty. Gen. 42.)

In light of the above, the City concurs that zoning administrator approval is not required prior to issuance of a demolition permit for the specific properties in questions. At the City's request, HUD has provided a list of parcel numbers for the units to be demolished. That list is being provided forthwith to City staff to expedite issuance of the demolition permit.

Finally, please be advised that the City is not waiving any other state or local ordinances, statutes, regulations or law that otherwise would be applicable to HUD owned properties. The City, nevertheless, is happy to provide the assistance and information that it reasonably can.

Thank you for your time and attention to this matter.

Very truly yours,
