Your attention is directed to the status of your permit:

Each building permit issued by the Planning and Building Department shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within 180 days from the date of such permit, or if the building or work authorized by such permit is suspended or abandoned at any time after the work is commenced for a period of 180 days.

Our files show no progress on your project within the last 180 days and your permit has expired due to limitation of work. As a courtesy, we are extending your permit for **ten (10) working days** past the date of this notice, however, you must call **916-264-5191** for a progress or final inspection within that time period. If we do not hear from you within those 10 days, we will assume this project has been abandoned and therefore consider your permit expired.

You are further notified that once this permit has expired, a **NEW PERMIT** must be obtained before any further work is done and you will be required to make any changes necessary to meet the requirements of the present Sacramento City Code.
