Our Geotechnical Report for the subject project indicates that the sand layer for below floor slabs may be as thin as one inch. This should be considered an approximate dimension. Therefore, we have no problem with an "as-built" sand layer of approximately one inch in thickness.

Slab Clarification**

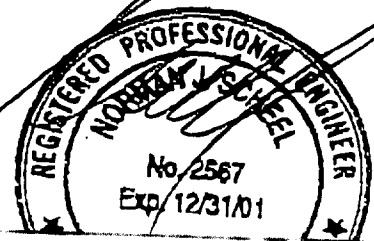

To Whom It May Concern:

This letter is to clarify that if it is acceptable by the Geotechnical Engineer to have 1" of sand below the slab, it is acceptable to us.

If you have any questions, please call Rob Coon.
