Honorable Members in Session:

SUBJECT: Accelerated General Plan Update: Report Back Regarding Request for Additional Research on Employment Projections

SUMMARY

At your October 27, 1981 meeting you instructed staff to report back on a request to provide additional research for the accelerated general plan update. The report back was to include three items: a) if such research could be conducted within the accelerated work schedule; b) if there were sufficient funds available; and c) if a competent consultant was available to do the requested work. Staff has determined that the answer to all three of those items is yes. The requested employment projection research could be conducted in a 6 to 7 week period. The study would cost between \$12,000 to \$14,000.

A sufficient portion of the \$115,000 donated to the City for the accelerated general plan update process remains unencumbered and available to fund the proposed employment projections research. It should be noted however, that funding of this study would exhaust the \$115,000. Any further work other than that currently anticipated would have to be funded from new sources.

Finally, at least one qualified consulting firm is available to conduct this research under the time constraints.

RECOMMENDATION

It is recommended that staff proceed immediately with arrangements to retain a consultant on this study.

Respectfully submitted,

Marty Van Duyn
