RECOMMENDATION ON SALARY INCREASE
"Y-Rate" Employees

Communication from City Council
dated October 22, 1959, requesting
a recommendation from the Civil
Service Board as to the inclusion of "y-rate" employees in the one-step salary

11-4-59

increase for all classifications of City employees, as adopted by the City Council on date of October 15, 1959, was read and considered, this matter having been laid over to this meeting from the last meeting of the Board held October 26, 1959.

The following representatives of the Sacramento City Employees' Association were present: Kenneth Wright, Alvin Verser and Robert Farmer. Also present were Mr. Bill Francis and Jim Rotz of the Plumbers' Union, on behalf of a particular "y-rate" employee in the Water Department.

Request was made by the City Employees' Association representatives that a raise for the "y-rate" employees be recommended, if the general salary increase was based on a "cost-of-living" adjustment; and that the salary range for Plant Operator I be increased to a range of \$380-460 on December 1, 1959, based on a survey of salaries of comparable classes in other agencies prepared by the City Employees' Association, which would provide an increase in salary for seven Plant Operators Grade I presently being paid on "y-rates."

Request was made by Plumbers' Union representatives on behalf of John Daily, Field Representative and former Water Service Representative prior to July 1, 1959, and presently paid on a y-rate, to be considered for a salary increase on December 1, 1959. After discussion of duties performed by Mr. Daily, the Personnel Officer was instructed to make a further study of this position and to discuss the findings with the department head, union representatives, and Mr. Daily.

After employee representatives were excused, the matter was further discussed and it was the opinion of the Board that (1) the original recommendation of the Board for a one-step increase in the range of all classifications was not based on or related to any increase in the "cost of living", and (2) any action in granted increases to "y-rate" employees would be contrary to accepted principles of salary administration, since nearly every public

11-4-59

agency has a civil service rule or clause in their salary ordinance or resolution to the effect that "y-rate" employees are not eligible for increases until the range established for their classification exceeds the salary rate being received.

Motion was made by Mr. Grebitus that the recommendation for a one-step increase in the ranges for all classifications made by the Civil Service Board on October 16, 1959, should have no effect on employees now receiving salary rates above the maximum for their classification. Motion was seconded by Mr. Genshlea and carried by the following vote:

AYES: Commissioners C. Alexander, Deise, Genshlea and Grebitus
