

**CITY OF SACRAMENTO
DEPARTMENT OF PLANNING & DEVELOPMENT
ZONING ADMINISTRATOR
1231 I Street, Sacramento, CA 95814**

ACTION OF THE ZONING ADMINISTRATOR

On Wednesday, January 15, 1997, the Zoning Administrator ratified the Negative Declaration and approved with conditions a special permit to add a cellular antenna panels and PCS antenna panels on the roof of an existing office building for the project known as Z96-141 and Z96-157. Findings of Fact and conditions of approval for the project are listed on pages 3-4.

Project Information

- Request:
1. Negative Declaration
 2. Zoning Administrator Special Permit to add nine wireless communications antenna panels mounted on the roof parapet of an existing five story office building located on 6.49± developed acres in the Office-Business (O-B)(PUD)) zone. (Z96-141)
 3. Zoning Administrator Special Permit to add twelve cellular communications antenna panels mounted on the roof of an existing five story office building located on 6.49± developed acres in the Office-Business (O-B)(PUD) zone. (Z96-157)

Location: 2450 Venture Oaks Way (D1, Area 4)

Assessor's Parcel Number: 274-0320-040

Applicants: (Z96-141) Sprint Spectrum L.P. c/o Gearon & Co. (Cheryl Pence)
3065 Gold Camp Drive
Rancho Cordova, CA 95670

(Z96-157) AT&T Wireless Services (Keith Bray)
10030 Goethe Road
Sacramento, CA 95827

Property Owner: Evergreen Tustin Ventures
1029 J Street LL-7
Sacramento, CA 95814

General Plan Designation: Regional Commercial and Office
South Natomas

Community Plan Designation: Office/Office Park

Existing Land Use of Site: Office Building
Existing Zoning of Site: Office-Business (O-B)(PUD)

Surrounding Land Use and Zoning:

North: O-B (PUD); Office
South: C-3 (PUD); Office
East: C-3 (PUD); Interstate 5
West: C-3 (PUD); Office

Property Dimensions: Irregular
Property Area: 6.49± acres
Topography: Flat
Street Improvements: Existing
Utilities: Existing

Project Plans: See Exhibits A-F

Previous Files: P85-153, P87-153, P89-204, P94-013, Z93-093, Z94-029 (All files relate to the building, signs, or uses)

Additional Information: The applicants propose to attach a total of 21 antenna panels to the sides of the existing building at the roof parapet and the installation of four equipment cabinets and an equipment shelter on the roof. Each Sprint antenna panel is six feet long and six inches wide and there will be a total of nine antenna panels (three sectors of three panels each). Each Sprint cabinet is 2.5 feet wide by five feet tall by 2.5 five feet deep (6.25 square feet) and the group will be located in the south portion of the roof behind the mechanical equipment screen. Each AT&T Wireless Services antenna panel is four feet long and one foot wide and there will be a total of twelve antenna panels (three sectors of four panels each). The AT&T Wireless Services equipment shelter will be twelve feet by 28 feet and located in the northwest corner of the roof behind the mechanical equipment screen. Any cellular equipment (antennas) which both receives and transmits requires a Special Permit according to the Zoning Ordinance.

The site is located within the Natomas Community Association area. The project plans have been sent to the association and staff received a letter supporting the efforts of the applicants to collocate antennas and sightful roof-mounts. The project has been noticed and staff has not received any calls.

Environmental Determination: This project, as proposed, will not have a significant impact on the environment and a negative declaration with no mitigation measures has been prepared and filed.

Conditions of Approval

1. Size and location of the antennas shall conform to the plans submitted. The applicant shall use non-reflective paint on the antenna panels to prevent glare and the antenna shall be painted to match the building at the point of attachment. The paint shall match the building in color and finish (i.e. if the building paint finish is glossy then the paint for the antennas and equipment shall match.)
2. Any additional antennas shall require a modification of the Special Permit. {21 (9 panels for Sprint and 12 panels for AT&T Wireless) antenna panels are approved}
3. The applicant shall obtain all necessary building permits prior to commencing construction.
4. All support brackets, connections, cables, electrical boxes, etc., shall not be visible and will be painted to match the building.
5. Should the applicant every discontinue using the antenna panels for wireless services then the applicant shall remove the panels within six months of termination.
6. The equipment cabinets and/or shelter may require additional screening to be coordinated with Design Review staff if they can not be totally screened behind the roof parapet wall. Sprint and AT&T Wireless shall contact the Zoning Administrator's staff (Sandra Yope, 264-7158) when the cabinets/shelter are installed to see if additional screening will be required.

Findings of Fact:

1. The proposed project, as conditioned, is based upon sound principles of land use in that the antennas will be added inconspicuously on an existing office building roof parapet.
2. The project will not be detrimental to the public health, safety, or welfare nor result in a nuisance in that:
 - a. the proposed cellular equipment shelter will be located on the roof of the existing office building and the antennas will be attached to building roof parapet; and
 - b. the design and location of the antennas will not significantly impact the surrounding commercial area.
3. The project is consistent with the General Plan and the South Natomas Community Plan which designate the subject site as Regional Commercial and Office and Office/Office Park, respectively.

Joy D. Patterson

Joy D. Patterson
Zoning Administrator

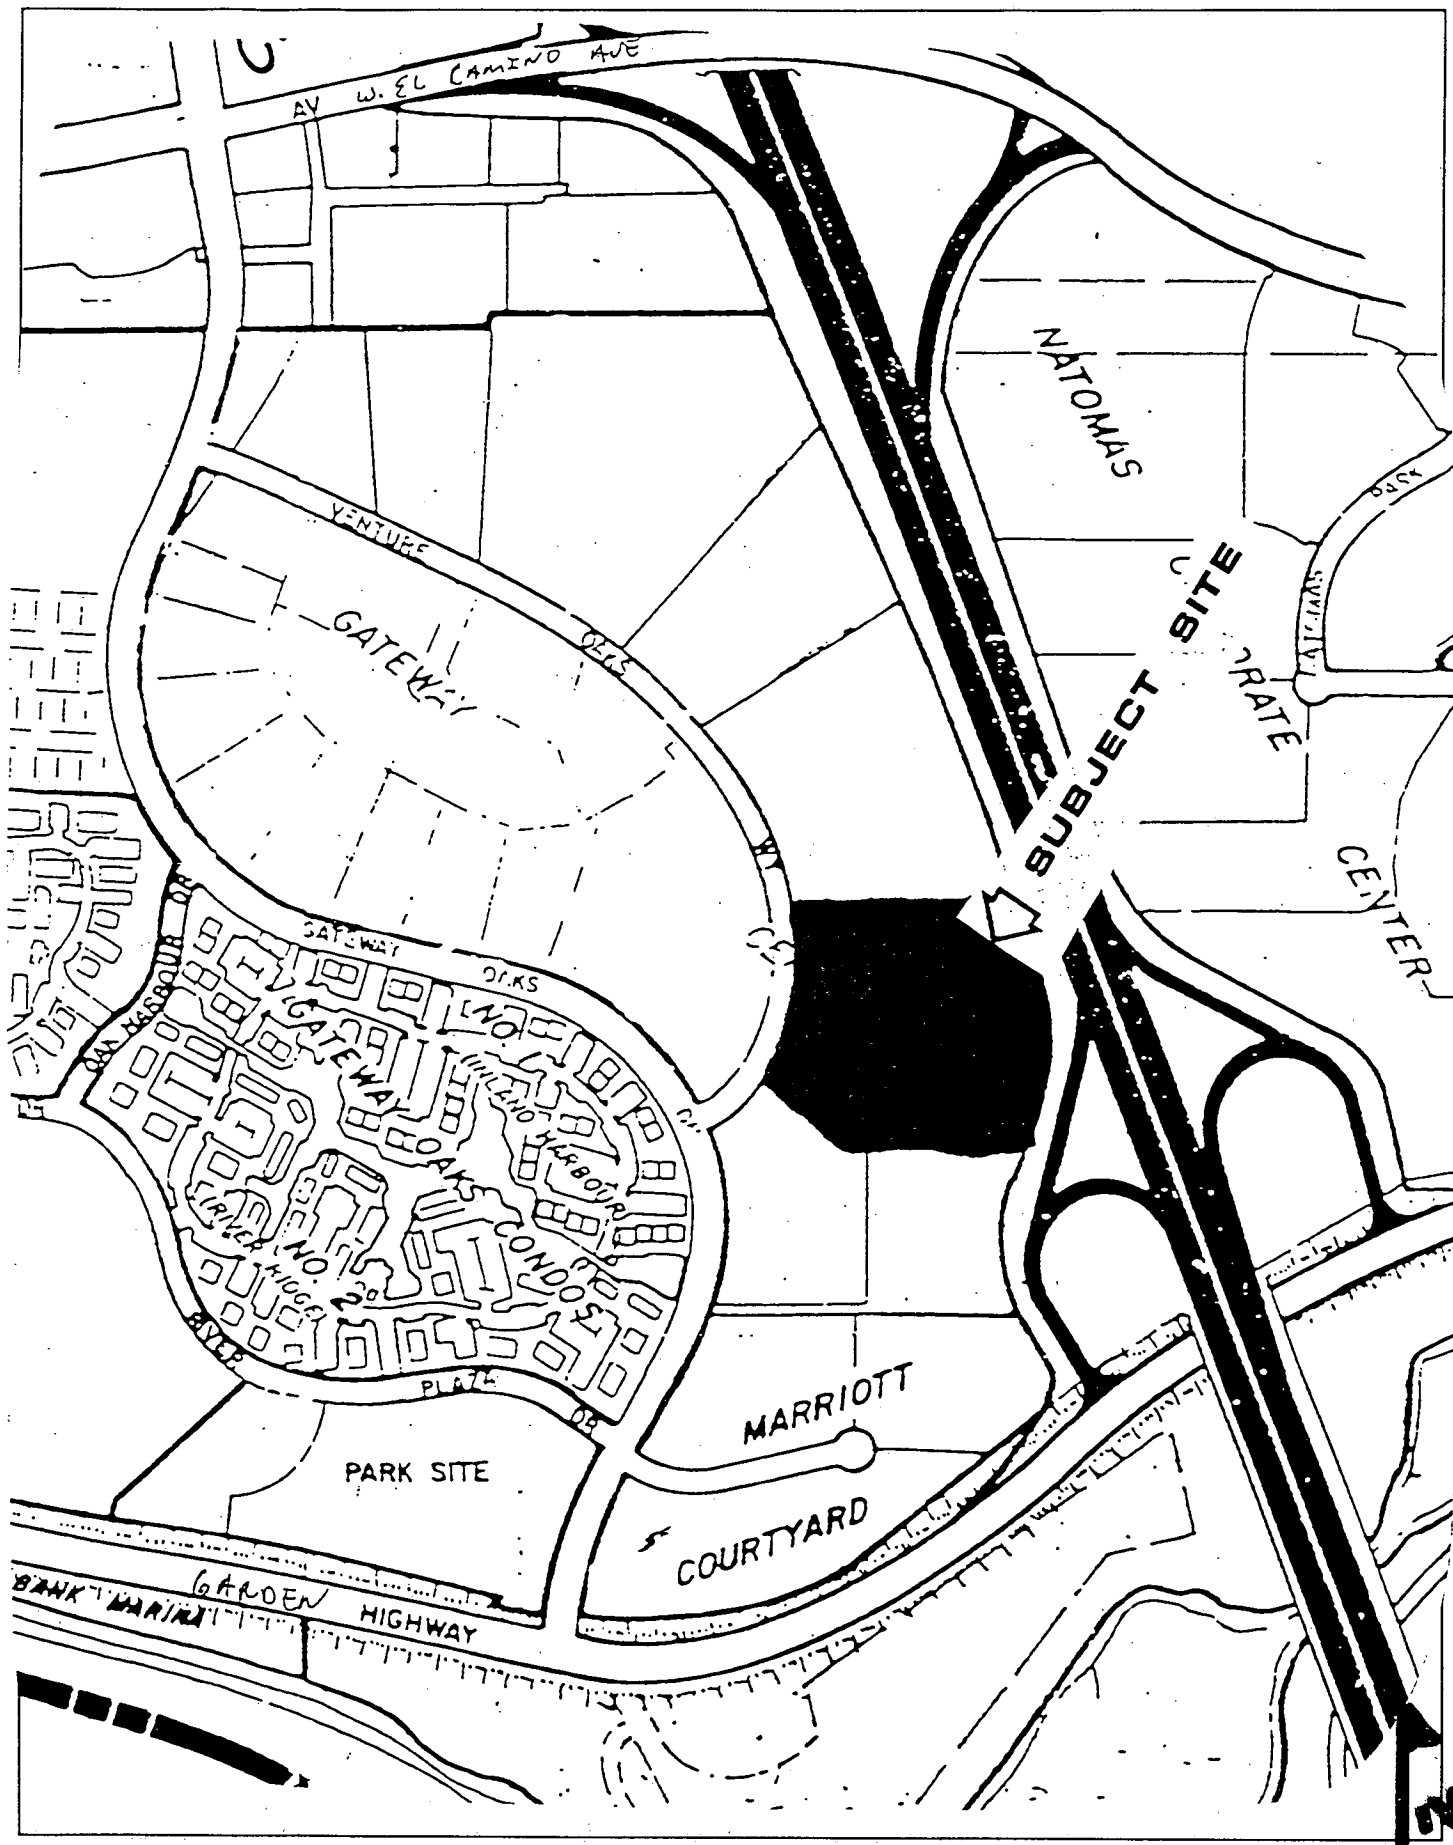

A use for which a Special Permit is granted must be established within two years after such permit is approved. If such use is not so established the Special Permit shall be deemed to have expired and shall be null and void. A Special Permit use which requires a Building Permit shall be deemed established when such Building Permit is secured and construction thereunder physically commenced. If no building permit is required, the use shall be deemed established when the activity permitted has been commenced.

The decision of the Zoning Administrator may be appealed to the Planning Commission. An appeal must be filed within 10 days of the Zoning Administrator's hearing. If an appeal is not filed, the action of the Zoning Administrator is final.
