

City Planning Commission
Sacramento, California

Members in Session:

SUBJECT: Convenience Store Ordinance (M84-030)

SUMMARY

The proposed Convenience Store Ordinance would require that such uses obtain a Special Permit if they are located within 500 feet from a residence or a residentially zoned parcel and their hours of operation extend beyond 6:00 a.m. to 11:00 p.m. These regulations are modeled after the County's existing ordinance. The hours of operation set forth in the recently adopted C-1 Zone Ordinance are being amended to be consistent with these new standards.

Staff recommends that the Commission ratify the Negative Declaration and recommend adoption of the attached zoning ordinance amendment regulating convenience stores.

BACKGROUND

Convenience stores are currently regulated under the general category of retail stores and services and are allowed only within commercial and industrial zones. The proposed zoning ordinance amendment would establish a new category and definition for convenience stores. The proposed definition is included in the attached ordinance and it defines such uses as stores with 5,000 square feet or less that sell food and household goods. The definition specifically excludes liquor stores, delicatessens or other uses that are characterized by on-site preparation of food, and stores that only sell fresh fruits, vegetables and/or meats.

Staff conducted a survey of the existing convenience store regulations of other jurisdictions. The findings of that survey are provided in Table 1. The County of Sacramento allows convenience stores with a special permit in their medium to high density residential zones (i.e., RD-5 through RD-40). Convenience stores are allowed by right in their shopping center zone. A special permit is required for convenience stores located within their other commercial zones if the use is located within 500 feet or less from a residential zone and the hours of operation extend beyond 6:00 a.m. to 11:00 p.m. In addition, if the use is located within 1,000 feet from the property line of any public or private school and the hours extend beyond 6:00 a.m. to 11:00 p.m., a special permit is again required. Staff is not proposing

to include a standard relating to distance from schools, since a special permit would not be required unless the store operated late at night and the issue of loitering of students at the store after school would probably not be a factor after 11:00 p.m.

ENVIRONMENTAL DETERMINATION

The Environmental Coordinator finds that this zoning ordinance amendment will not have a significant adverse environmental impact and has issued a Negative Declaration.

RECOMMENDATION

Staff recommends that the Commission:

1. Ratify the Negative Declaration.
2. Recommend adoption of the attached zoning ordinance amendment.

Respectfully submitted,
