1231 "I" STREET, SUITE 200, SACRAMENTO, CA 95814

<b>APPLICANT</b>	Spink Corporation - P.O. Box 2511, Sacramento, CA 95814		
<b>OWNER</b>	Rivers Oaks Partnership - 4247 South Market Court, Ste C, Sacto 95834		
<b>PLANS BY</b>	Spink Corporation - P.O. Box 2511, Sacramento, CA 95814		
<b>FILING DATE</b>	11-15-85	<b>ENVIR. DET.</b>	11-22-85
<b>ASSESSOR'S-PCL. NO.</b>	274-320-29, oor. 30		

APPLICANT'S STATEMENT OF WORKS TO BE DONE

The applicant, Spink Corporation, is requesting a Conditional Use Permit for the proposed development of a 100,000 sq. ft. office building on a 2.5-acre parcel located at the intersection of [unclear] and [unclear] Streets in the [unclear] area of Sacramento, California. The parcel is currently zoned [unclear].

The proposed development consists of a single-story office building with a total floor area of 100,000 sq. ft. The building will be constructed on a 2.5-acre parcel. The site plan shows the building footprint, parking areas, and landscaping. The applicant has provided a detailed site plan and a preliminary environmental impact statement.

The applicant is requesting a Conditional Use Permit for the proposed development because the use is not permitted by the current zoning ordinance. The applicant believes that the proposed development is in the public interest and that the Conditional Use Permit should be granted.

The applicant has provided a detailed site plan and a preliminary environmental impact statement. The applicant is requesting a Conditional Use Permit for the proposed development because the use is not permitted by the current zoning ordinance. The applicant believes that the proposed development is in the public interest and that the Conditional Use Permit should be granted.

REPORT BY	SC:bw		
NEGATIVE DEC	4-2-84	EIR	ASSESSOR'S PCL NO. 274-329-24 & 25

**APPLICATION:** 1. Environmental Determination  
2. Modification of a Special Permit to develop 712 apartment units in the Garden Apartment (R-2B)(PUD) zone (Sec. 15-E)

**LOCATION:** North side of Garden Highway, west of Gateway Oaks Drive

**PROPOSAL:** The applicant is requesting the necessary entitlements to permit the development of a 712-unit apartment project.

**PROJECT INFORMATION:**

1974 General Plan Designation: Residential  
1978 South Natomas Community Plan Designation: Residential (11-29 units/acre - 22 min. av.)  
Existing Zoning of Site: R-2B (PUD)  
Existing Land Use of Site: Vacant

**Surrounding Land Use and Zoning:**

North: Vacant; R-2B-R(PUD)  
South: Sacramento River; FW  
East: Vacant, City park site; OB-R & A  
West: East main drainage canal; A

Parking Required: 1,068 spaces  
Parking Provided: 1,140 spaces  
Ratio Required: 1.5 spaces per dwelling unit  
Ratio Provided: 1.6 spaces per dwelling unit  
Property Dimensions: irregular  
Property Area: 32.5 ac. (net) apartment site  
Density of Development: 21.9 units per net ac. apartment site

Unit Type	Number of Units	Sq. Footage of Units
A	264	720
B	176	840
C	224	1,000
D	32	1,194
E	16	1,444

Height of Structures: One, two & three stories (16 ft., 24 ft. & 33 ft.)  
Significant Features of Site: 36 existing trees of various types and sizes  
Exterior Building Colors: Earth tones  
Exterior Building Materials: Wood siding, stucco & tile roofs

**BACKGROUND INFORMATION:** This request involves the modification of a special permit to develop a 712-unit apartment complex in the Natomas Oaks Planned Unit Development.

APPLIC. NO. PP3-021

MEETING DATE April 12, 1984

CPC ITEM NO. 24

*part of 3009*

The Commission approved a special permit for the apartment development on January 26, 1984, along with the necessary entitlements for other development within the PUD. When the proposal was reviewed and approved by the Commission, the project information and elevations indicated that the apartment complex would consist of one and two-story structures. Subsequent to the approval for this development the applicant realized that the elevations submitted with the application for the apartment development only reflected one and two-story structures.

The 712 units approved for this site were to be located in one, two and three-story structures as indicated in the attached site plan (see Exhibit A). The three-story buildings are indicated by the diagonal lined footprints; the single story units are designated by cross hatched patterns, and the remaining units are two stories. Although this plan is the same as originally approved by the Commission, the three-story units were not reflected in the elevations. In addition, the applicant replaced the two-story structures at the main entrances of each phase with one-story structures.

STAFF EVALUATION: Staff has the following comments regarding this request:

1. The proposed modification will not alter the density of the development of 21.9 units per acre or the number and size of the units originally approved by the Commission.
2. The height of the three-story structures will be 33 feet, which is below the maximum height limit of 35 feet in the Garden Apartment (P-2B) zone. The three-story buildings represent 19% of the total apartment development or 14 of the total 75 structures. There will be 57 two-story structures and four single-story buildings in the proposed apartment project.

The original site plan indicated two-story structures adjacent to the main entrances to each phase. This has been modified to provide a total of four one-story structures at these entrances.

3. As proposed the three-story structures will be located toward the center of the project in each phase of the development. The applicant is proposing to construct the project in two phases with 355 units in each phase. As conditioned, each phase will be developed with a separate identity to address concerns over such a large number of units in the project.

STAFF RECOMMENDATION: Staff recommends the following actions:

1. Ratification of the Negative Declaration; and
2. Approval of the Special Permit Modification, subject to the original conditions listed below and based upon Findings of Fact to follow.

Findings of Fact - Special Permit

- a. The special permit is based upon sound principles of land use in that the proposed density is consistent with the community plan designation, and the height of the structures will conform to the height limit allowed in this zone.

- b. The Special Permit as originally conditioned will not be detrimental to the public health, safety or welfare or result in the creation of a nuisance in that each phase will maintain a separate identity and adequate parking, setbacks and recreational areas will be provided.
- c. If granted, the Special Permit is consistent with the South Natomas Community Plan and the General Plan which designate the site for residential purposes.

Conditions - Special Permit

- a. The applicant shall revise the site plan to provide for more convenient parking for those cluster of units indicated in Exhibit A. Revised plans which indicate this shall be submitted for the review and approval of the Planning Director prior to the issuance of building permits.
- b. Each phase shall be developed with separate exterior materials to insure a sense of project identity, specifically, stucco with red tile roofs shall be utilized on one phase and wood siding with darker colored tile roofs shall be utilized on the other phase. Alternative materials may be utilized if the overall intent of this condition is satisfied. Revised plans shall be submitted for the review and approval of the Planning Director prior to issuance of building permits.
- c. Exhibit D, multiple family design criteria, shall be adopted as a condition of approval. The applicant shall utilize these criteria as a general guideline, yet provide specific plans which are unique to each phase.
- d. The applicant shall erect a six-foot tall concrete fence along the edge of the proposed parkway/bikepath system. The exact location of this fence shall be subject to the review and approval of the Director of Community Services.
- e. Should the Department of Community Services be unsuccessful in locating the parkway/bikepath system on the drainage canal property, the applicant shall dedicate or provide an easement for this system on the western edge of the apartment site, and the site plan shall be revised to indicate this. Revised plans, if required, shall be subject to the review and approval of the Director of Community Services prior to issuance of building permits.
