Re: John Laing Homes

All Plans

Dear Sir or Madam:

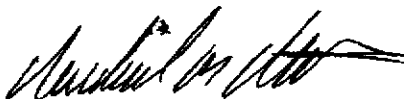

The following issue has been brought to my attention.

Where 3x framing members were inadvertently not installed at adjoining panel edges, a double 2x stud may be used provided the studs are stitch nailed with 16d sinker nails at 4" o.c. staggered. Shear panels should be edge nailed to each stud.

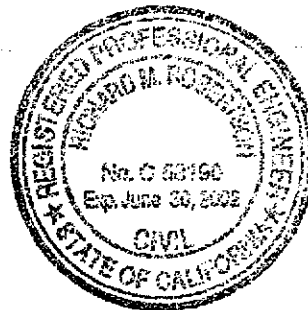

Note: Although this fix is acceptable it is not to be used as standard framing practice for the application of shear walls.

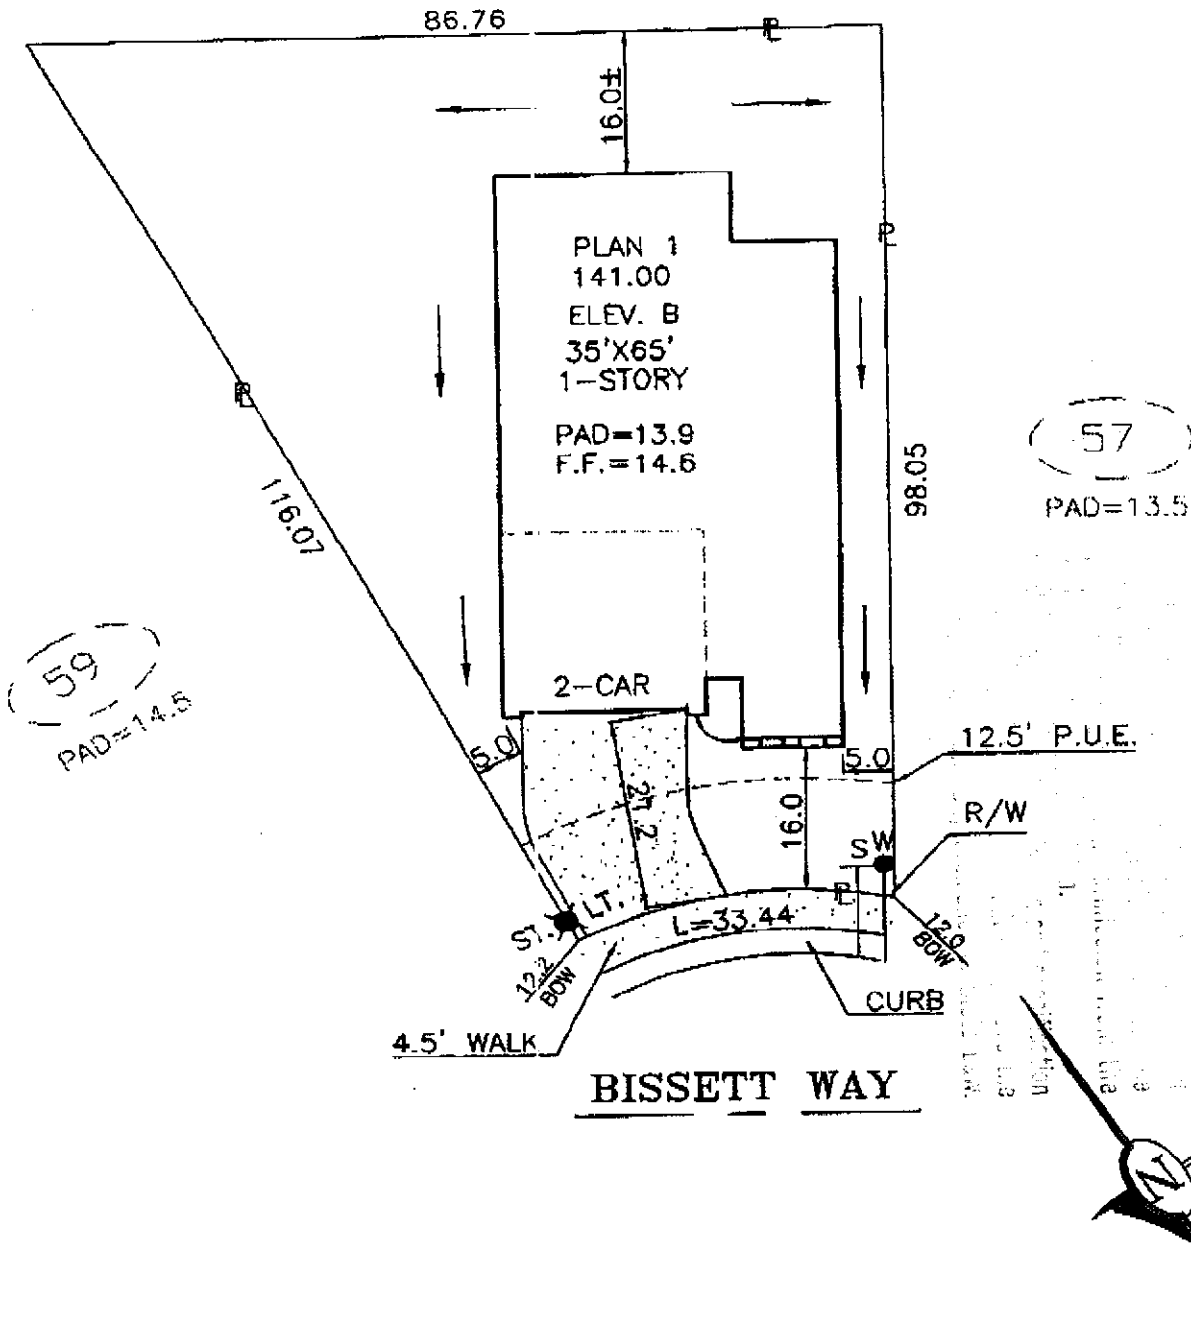

If you have any questions, feel free to call.

Sincerely,

Richard M. Robertson, P.E.
