Attachment 01 – Description/Analysis

Issue: Prior to forwarding nominations to the Mayor for appointment, the Personnel and Public Employees Committee conducts interviews of applicants for open board and commission positions.

Policy Considerations: None

Economic Impacts: None

Environmental Considerations: None

Sustainability: None

Commission/Committee Action: None

Rationale for Recommendation: When a position on a City advisory board or commission becomes available thru term expiration or resignation, the Office of the City Clerk and the appropriate department, conduct a recruitment for interested parties. When the application period has closed, or the number of applications exceeds the number of available seats, the Personnel and Public Employee Committee conducts interviews of all applicants. Therefore, the recommendation is to interview applicants and continue the item to the next meeting for review and consideration of applicants for nomination to the Mayor, three nominees to category A and one nominee to category B on the Utilities Rate Advisory Commission.

Financial Considerations: None

Emerging Small Business Development (ESBD): None

Attachment 02 – Background

If Yes, please explain:

Please state the reason(s) you would like to be a member of this board/commission.

As I am concluding the City Management Academy, hosted by the City of Sacramento, I have decided that I would like to continue my involvement by joining a commission that needs residents. In reviewing each of the commissions, I decided the Utilities Rate Advisory Commission would be the best fit for me at this time and for the following reasons. (1.) I do hold an MBA in Finance and am knowledgeable in the areas of accounting and finance. I manage my organization's annual audit which has received unqualified opinions for the last two years. (2.) I am a single family home residential customer in Land Park and my neighborhood is in the process of having water meters installed at each residence which could be valuable for this commission and my neighborhood. (3.) During the City Management Academy, I liked the department of General Services a great deal because they clearly like their jobs and in thinking about joining a commission, it seems working with people who like what they are doing would be a good first experience.

Thank you for your consideration.

I am a resident of the City of Sacramento, and I am interested in becoming more involved in City governance. I have worked in the utility industry since graduating from UC Davis in 2004 and I am particularly interested in how the Department of Utilities serves its residential rate-payers. The Department of Utilities has very important work to do in the coming years between the installation of water meters and various plans for capital improvements to utility infrastructure. The refinement of rates will be integral to seeing these projects to fruition. I see the Utility Rate Advisory Commission as playing an important role in both evaluating rate proposals on behalf of the Council and Mayor and ensuring transparency in the establishment of utility rates. Issues related to utility rates can be a highly technical, and based on my education and work experience, I am well prepared to review rate proposals and provide recommendations to the City Council.

I am interested in serving on the City of Sacramento's Utility Rate Advisory Commission because of my extensive involvement in utilities matters over the past couple of decades. As a prior consultant to the California State Assembly Utilities and Commerce Committee, (from 1987 – 1990 and 1998 – 2000) I have a unique interest and understanding of ratemaking as it applies to the utility industry.

I have served on the URAC Commission as we tackled very important issues relating to several areas including compliance with Proposition 218, addressing budget constraints, and modifying the recycling program to every other week, and eliminating use of "The Claw" rate restructuring and implementation of a low income "lifeline" program for city residents needing assistance with the City Utility bill. I have enjoyed serving on the Commission and wish to continue to serve on the Commission.

I am finishing my first term on the Commission and desire to remain on the Commission for a second term. My experience on the Commission to date will aid me in being a valuable member of the Commission through the upcoming rate program revision process. Additionally, several policies were put in place during my tenure on the Commission that were experimental or new such as the rate assistance program and the reduced recycling service plan. There are ongoing questions regarding these and other programs that I hope to be involved in reviewing as a Commissioner during my second term.

I am now retired, but I have worked for 32 years on water policy issues, both at the state and local government levels. I was the Manager of Legislative and Public Affairs for the State Water Resources Control Board from 1980 until 1989. I was the Manager of Intergovernmental Affairs for East Bay Municipal Utility District from 1989 until 2012 and I was located in the Sacramento office. I had lots of experience with retail water and wastewater utility rates during my years of EBMUD service. I have been a City of Sacramento resident for the past 36 years, since I graduated from law school and came to work at the California Energy Commission. Over these past 36 years, I have lived in East Sacramento, Midtown, and now live in Curtis Park. I am very familiar with the water rate issues that City of Sacramento deals with and know that these issues must be handled in an efficient manner, but also a manner that creates a strong sense of fairness with Sacramento residents.
