City Council
Sacramento, California

Honorable Members in Session:

SUBJECT: Approval of Plans and Specifications for Water Main Installation -
Commerce Circle Tie

SUMMARY

The Division of Water and Sewers has prepared plans and specifications for the subject project. Copy of said plans and specifications has been forwarded to the City Clerk and approval is recommended.

BACKGROUND

The North Sacramento area's water system has been substandard since the City has taken over operation and maintenance. In order to provide better water pressures for fire protection this large diameter distribution main is needed.

FINANCIAL DATA

This project is included in the 1977-78 Water Distribution Capital Improvement Budget. Estimated construction cost is \$50,000.00. The amount budgeted is \$35,000.00 (4-13-3030-1572-4820) of which \$32,641.70 remains. When bids are received, a budget amendment will be requested if necessary.

RECOMMENDATION

It is recommended that the plans and specifications be approved and that bids be received on March 17, 1981.

Respectfully submitted,

Harry G. Behrens, Manager

R. H. Parker, City Engineer

Recommendation approved:

Walter J. Slize, City Manager
