Public Hearing

**December 6, 2005**

Honorable Mayor and  
Members of the City Council

**Subject: PRASAD TENTATIVE MAP REZONE (P04-207)**

**Location/Council District:** 4511 Austin Street; APN: 237-0022-024; Council District 2.

**Recommendation:**

Planning Commission and staff recommend the City Council: 1) Adopt the Ordinance amending the Zoning Districts established by the Comprehensive Zoning Ordinance Title 17 of the Sacramento City Code by removing 2.61± acres from the Agriculture (A) zone and placing it in the Standard Single-Family (R-1) zone.

**Contact:** Greg Bitter, Senior Planner, 808-7816  
Arwen Wacht, Associate Planner, 808-1964  
**Presenters:** Arwen Wacht, Associate Planner, 808-1964  
**Department:** Development Services  
**Division:** Planning  
**Organization No:** 4875

**Summary:**

The applicant is requesting a rezone of a 2.61± acre lot from the Agriculture (A) zone to the Standard Single-Family (R-1) zone in order to develop the site with single-family residences. The site currently is developed with a one-story single-family residence. The proposal is to subdivide the property into ten parcels and allow for residential development on each of the proposed parcels. The existing single-family residence will be maintained on Lot A.

**Committee/Commission Action:**

On September 22, 2005, on consent, the Planning Commission approved the related Tentative Subdivision Map and Subdivision Modifications by a vote of six ayes and zero noes to subdivide 2.61± gross acres into ten (10) parcels, to create one (1) lot less than 52 feet in width, to create one (1) corner lot less than 62 feet in width, to create two (2) lots exceeding 160 feet in depth, to create three (3) lots less than 100 feet in depth, and recommended approval of the Rezone and forwarded it to City Council.

**Background Information:**

This site currently houses a single-family residence that was constructed in 2000. The applicant applied for Expanded North Area Design Review for the single-family residence in July 1999. The final building permit was issued for the residence in December 2000. At this time the existing zoning of Agriculture (A) only allows the site to be developed with one dwelling unit and would not allow the site to be subdivided further. The proposed rezone will allow for the subdivision and for the overall site to be developed with nine additional residences.

**Rezone:**

The applicant is proposing to rezone the site to Standard Single-Family (R-1). The R-1 zone is intended to be a low density residential zone composed of single-family detached residences on lots a minimum of fifty-two (52) feet by one hundred (100) feet in size. In this case, five of the lots were not able to provide the required fifty-two feet (interior lot), sixty-two feet (corner lot), or one hundred feet (in depth) due to the location of the lot and the layout of the surrounding development, although all ten lots are able to meet the lot square footage requirements (a minimum of 5,200 square feet for interior lots and 6,200 square feet for corner lots). The Planning Commission approved the Tentative Subdivision Map and Subdivision Modifications on September 22, 2005.

Although a rezone is required to develop this site as proposed, the proposal is consistent with the North Sacramento Community Plan designation of Residential (4-8 du/na) and the General Plan designation of Low Density Residential (4-15 du/na). Therefore, the proposal does not require a Community Plan Amendment or a General Plan Amendment to develop.

Staff supports the rezone to Standard Single Family (R-1) and subdivision of the site into ten parcels, since it retains the existing residential unit and provides for development consistent with the surrounding single-family lots and zoning.

**Financial Considerations:**

This project has no fiscal considerations.

**Environmental Considerations:**

The proposed project is exempt from environmental review pursuant to CEQA Guidelines (CEQA Section 15332).

**Policy Considerations:**

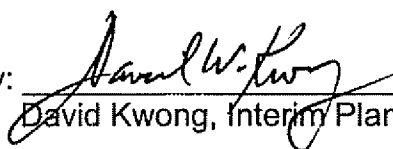

The project is consistent with General Plan policies to develop residential land uses in a manner which is efficient and utilizes existing and planned urban resources, to promote appropriate and compatible infill housing, and to improve the quality of residential neighborhoods by protecting, preserving, and enhancing their character. The project is consistent with North Sacramento Community Plan policies, which encourage development north of I-80 in a manner which emphasizes neighborhood cohesiveness and variety of housing types.

**Smart Growth Principles-** City Council adopted a set of Smart Growth Principles in December 2001 in order to promote growth or sustain existing development that is economically sound, environmentally friendly, and supportive of community livability. The proposed project meets the above goals by supporting new development to allow for efficient use of infill areas.

**Strategic Plan Implementation-** The project conforms with the City of Sacramento Strategic Plan, specifically by advancing the goal to enhance and preserve urban areas by supporting new development, or redevelopment within existing developed areas, that allows for efficient use of existing facilities or features.
