Dear Mr. Palm:

We have reviewed the as-built conditions as shown in Delta 2 drawings. Changes to the drawings are as follows:

- Some structural shear wall lengths were less length than what was specified on delta 1 drawing; MSM has made revisions to the plan accordingly.
- SK092403-01 was provided for exterior east wall elevation at family room (first floor) and master bedroom (second floor) to clarify the additional strapping requirements at window openings
- 6x6 DF#1 hold down post may be substituted with 4x4 post with 2x4 nailed to the side with 16d at 6" o.c.
- 3" diameter top plate penetration may be repaired with (S)LSTA15 at each side on each plate.
- The 3 1/8x12 GLB over the second floor supporting the roof trusses has been raised flush with the ceiling framing per owner request. The ends will be shaped as required to match roof slop.
