Description/Analysis

Issue: On May 14, 1996 the City Council approved the Ethel MacLeod Hart Trust Fund Advisory Committee Purpose and Guidelines (Guidelines), see Resolution Number 96-202. The current Advisory Committee has revised the Guidelines and recommends that the City Council adopt the revised Guidelines. In addition, the Advisory Committee recommends that a Contingency Fund, as defined in the original and revised Guidelines, be established to respond to unanticipated projects and program emergencies.

Policy Considerations: Changes to the Guidelines and the appropriation of funds from the Ethel MacLeod Hart Trust Fund (Trust Fund) both require the approval by City Council.

The utilization of the Trust Fund for the delivery of programs and services to the senior population is consistent with the Mayor and Council’s identified strategic planning focus areas of public safety, sustainability, and livability.

Environmental Considerations: This report concerns administrative activities that will not have any significant effect on the environment and do not constitute a “project”, as defined by the California Environmental Quality Act (Cal. Code Regs., tit. 14, §§ 15061(b)(3), 15378(b)(2)).

Commission/Committee Action: The Advisory Committee voted to recommend these actions at its February 25, 2008 meeting.

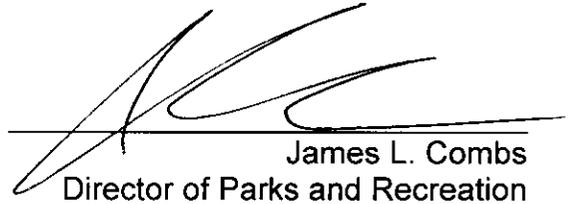

Rationale for Recommendation: The Guidelines have not been revised since their original adoption in 1996. The recommended revisions clarify the document and provide for a more efficient and appropriate functioning of the Advisory Committee and funding of projects to benefit senior citizens.

The revised Guidelines establish that “a portion of the Trust Fund will be retained as an emergency fund to respond to unanticipated projects or program emergencies.” (Section VIII B-4). The allocation of \$25,000 for a Contingency Fund is based on this criterion for project funding.

Financial Considerations: It is recommended that \$25,000 be allocated from the Trust Fund for the establishment of a Contingency Fund to respond to unanticipated projects and program emergencies. Replenishment of this fund would occur upon its depletion, when that occurs, and only with approval by both the Advisory Committee and City Council. The project funding strategy used for the Trust Fund is to utilize funds generated by the investment of the endowment over a five-year period to support an annual appropriation for projects during the following five-year period. The balance available for new projects during the current fund cycle (FY2007-2011) is \$283,307.

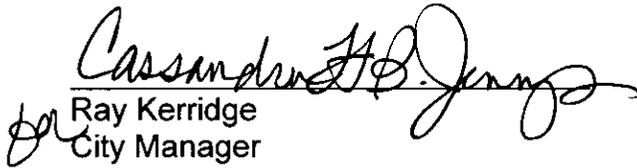

Emerging Small Business Development (ESBD): There are no ESBD considerations with this report.

Background

On May 14, 1996, the City Council approved the Ethel MacLeod Hart Trust Fund Advisory Committee Purpose and Guidelines (the "Guidelines"), see Resolution Number 96-202. The Guidelines outline the role of the Advisory Committee and its functions, and sets forth policies and procedures for the administration, investment, and appropriate uses of the fund. The current Hart Trust Fund Advisory Committee (the "Advisory Committee") has revised the Guidelines and recommends that the City Council adopt the revised Guidelines. In addition to language changes to improve clarity, and the removal of sections that pertain to the start-up of the Advisory Committee, the substantive changes are as follows:

- Changing the current designation of one of the seven members of the Advisory Committee from a representative of the Sacramento Senior Citizens Club, Inc. to an at-large member of the committee.
- Reducing the term of office from four years to three years.
- Allowing for the continuation of funding of specific projects beyond three years if a thorough evaluation of the project provides evidence that continued funding would benefit senior citizens.
- Eliminating the funding timeline so that projects can be funded, with City Council approval, at anytime throughout the year.

The revised Guidelines are attached as Exhibit A.

In addition, the Advisory Committee recommends that \$25,000 be allocated from the Trust Fund for the establishment of a Contingency Fund, as defined in both the existing and proposed revised Guidelines. The Contingency Fund will be used to respond to unanticipated projects and program emergencies. It is attached as Exhibit B.

**Ethel MacLeod Hart Trust Fund
2008 Project Allocation**

Project: Allocation for Ethel MacLeod Hart Contingency Fund

Establishes funding to respond to unexpected costs and immediate program needs appropriate for support from the Hart Trust Fund.

Funding: \$25,000

Project Description

The Ethel MacLeod Hart Trust Fund – Guidelines for Advisory Committee and Trust Fund Administration (the “Guidelines”) establishes that a portion of the five-year Trust Fund allocation will be retained for the purpose of responding to unanticipated projects and program emergencies.

The allocation of \$25,000 for this fund will allow the Hart Trust Fund Advisory Committee to identify and immediately respond to needs for funds by City programs and projects that adhere to the Guidelines. Unspent funds will be carried over fiscal years, and the Contingency Fund will be replenished with Advisory Committee and City Council approval only.

The funding of projects and programs by the Contingency Fund must adhere to Contingency Fund guidelines established by the Hart Trust Fund Advisory Committee on September 22, 1997. Those guidelines specify that the Contingency Fund may be used for costs associated with any project or program that meets the standards in section VIII-B of the Guidelines. Allocations from the Contingency Fund may be of any amount up to the lesser of \$25,000 or the balance in the Contingency Fund.
