**1. Legislative update from Ken Emanuels, Legislative Advocate for the City of Sacramento.**

**RECOMMENDATION OF STAFF:** FOR COMMITTEE INFORMATION

**MINUTES:**

Ken Emanuels, Legislative Advocate for the City of Sacramento, gave a summary of legislation affecting the City. He explained that the Legislature has recessed until January, and that almost 4300 bills were introduced this year, with approximately one-third going to the Governor for signature.

Regarding AB 252, the PERS bill, Mr. Emanuels explained that because it had to be effective before December 31, 1989 (and not January 1, 1990, as originally believed), the bill was added to SB 1172 as an urgency bill and is now on the Governor's desk for signature. He also informed the Committee that the water meter bills, AB 1300 and SB 312, were defeated, but that he expects this issue to come up again in the future.

MINUTES:

Carl Vandagriff, Associate Planner, was present to discuss these proposed Clean Air Act amendments. He explained that staff feels the Waxman bill (H.R. 2323) is the better bill, as it contains better emission standards.

Mike Eaton of the Environmental Council of Sacramento spoke at this time. He said that the situation in Washington is changing from day to day, and that any communications regarding these bills should be on the issues rather than on the bills themselves. Kastanis asked where these bills will be next April or May. Mr. Eaton said that Waxman thinks he can get his bill passed this year; Mr. Eaton feels it could be in a two-house conference at that point.

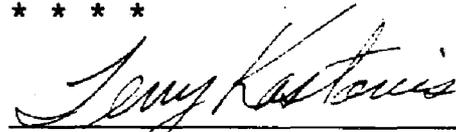

Kastanis noted that this would be a good issue to have the Chamber of Commerce carry back to the annual conference in Washington in April of next year. Robie asked Mr. Eaton if he thought it would be better, politically, not to support the Waxman bill (and thus "take on the President"), but rather to support the concepts of the bill. Mr. Eaton replied, "Not for political reasons, but yes."

Robie moved to support the concepts of the Waxman bill. Kastanis seconded the motion and it was supported. Planning staff will prepare the correspondence relating to this support.
