Subject: Approval of South Natomas Capital Improvement Fund Advisory Committee's Recommendations to Amend the 1984-85 Capital Improvement Program

## SUMMARY

At its January 14, 1985 meeting, the South Natomas Capital Improvement Fund Advisory Committee (SNCIFAC) heard proposals from both the Stanford Settlement and the South Natomas Little League to advance proposed 1985-86 funding grants to the 1984-85 fiscal year. The SNCIFAC is asking for approval of these changes and is requesting that the Budget and Finance Committee recommend that the City Council amend the 1984-85 Capital Improvement Program (CIP) and provide money to these two projects.

## RECOMMENDATION

Based upon the SNCIFAC request, staff would ask that the Budget and Finance Committee recommend the following:

1. Amendment of the 1984-85 CIP to include the Stanford Settlement and South Natomas Little League proposed capital improvement projects.
2. Approval of transfers from the SNCIF in the amounts of \$10,000 to fund the Stanford Settlement project and \$20,000 to pay for the South Natomas Little League project.
3. Authorization of the City Manager and City Clerk to execute agreements with the Stanford Settlement and South Natomas Little League for completion of these projects on behalf of the City of Sacramento.

Honorable Members in Session:

Subject: Approval of South Natomas Capital Improvement Fund Advisory Committee's Recommendations to Amend the 1984-85 Capital Improvement Program

### SUMMARY

At its January 14, 1985 meeting, the South Natomas Capital Improvement Fund Advisory Committee (SNCIFAC) heard proposals from both the Stanford Settlement and the South Natomas Little League to advance proposed 1985-86 funding grants to the 1984-85 fiscal year. The SNCIFAC is recommending approval of these requests and is asking that the City Council amend the 1984-85 Capital Improvement Program (CIP) and provide money to these two projects.

### BACKGROUND

As part of its process to advise the City Council on proposed uses of the South Natomas Capital Improvement Fund (SNCIF), the SNCIFAC held public hearings on proposed projects for the 1985-86 fiscal year. The Stanford Settlement and the South Natomas Little League made requests for funding projects which were ultimately approved by the SNCIFAC. Specifically, the Stanford Settlement asked that \$10,000 in additional monies be granted for remodeling efforts being undertaken by the center with the use of Community Development Block Grant funding; the South Natomas Little League requested \$20,000 in funding for the improvement of playing fields at the Rio Tierra Junior High School. All of the final SNCIFAC project recommendations were sent to the City Council, who in turn, referred them to the appropriate departments for incorporation into the City's capital planning process.

### ANALYSIS

Since the hearing process concluded, both the South Natomas Little League and the Stanford Settlement have requested that each of their proposed projects be advanced by one year. If the City Council approved the proposed Little League project, funds would become available at the beginning of next fiscal year. The South Natomas Little League would like to complete the proposed Rio Tierra Junior High School playfields' structural improvements prior to the beginning of the coming season which starts in April 1985. They therefore asked the SNCIFAC to request that the City Council amend the 1984-85 CIP to provide necessary SNCIF funding for the project in this fiscal year.

The City's Inspection Division recently reviewed the remodeling efforts at the Stanford Settlement and advised Settlement staff that various modifications would be required in the restroom facilities to make them more accessible to handicapped users. While there are sufficient CDBG funds available to complete the scheduled remodeling program, there are no additional monies for these new requirements. The Stanford Settlement staff has therefore adjusted their request to ask that SNCIF funding be granted in this fiscal year so that the office modifications can be approved by Inspections personnel.

#### FINANCIAL

There are currently sufficient funds within the SNCIF to pay for both of these projects as proposed. Agreements with each of the requesting parties, stipulating the terms of the funding grants as well as appropriate monitoring standards, are attached for Council information.

#### RECOMMENDATION

Based upon the SNCIFAC request, staff would recommend the following:

1. Amendment of the 1984-85 CIP to include the Stanford Settlement and South Natomas Little League proposed capital improvement projects.
2. Approval of transfers from the SNCIF in the amounts of \$10,000 to fund the Stanford Settlement project and \$20,000 to pay for the South Natomas Little League project.
3. Authorization of the City Manager and City Clerk to execute agreements with the Stanford Settlement and South Natomas Little League for completion of these projects on behalf of the City of Sacramento.

## SOUTH NATOMAS LITTLE LEAGUE

## Capital Improvement

## Fund Proposal

PROPOSAL

To improve two existing baseball diamonds and create two new baseball diamonds as part of a permanent South Natomas Little League field.

Overwhelming growth in the South Natomas area within just the past 8 months is the reason we must ask for funds now, for the 1985 season, rather than next year.

SNLL BACKGROUND

This league has been in existence over 20 years when our area was called Gardenland. More than half our coaches and managers grew up in this area and are raising their families here.

We have a consistent volunteer total of 35 coaches and managers, 15 scorekeepers, 15 team mothers, 15 business sponsors and 5 board members.

New residents moving into our area are often unaware of the "Gardenland" community that has existed here for many years. It is these long-time residents and business owners who give the feeling of "neighborhood" to this fast-growing affluent area.

As far as league business and financial arrangements are concerned, we have our account with the Bank of America and retain an accountant to serve us.

AVAILABLE LITTLE LEAGUE SITE

We have been working with the Grant School District and Principal of Rio Tierra Junior High School to arrange a mutually-beneficial agreement to build permanent diamonds on the junior high school property. We have agreement and are still working out details pending the City Budget Council's decision to help us.

We chose Rio Tierra because we already have two permanent diamonds on their property. Rio Tierra expects increasing enrollment. It's not going anywhere and has enjoyed our interest in maintaining so much of their property at our own expense.

We buy raw materials, not ready-made. All our labor is volunteer consisting of professionals in community, parents and the army and navy reserve corps.

### WHY THE NEED IS NOW

Within just the last year, we've seen the Bel Air complex completed, the addition of over 10 new apartment complexes and condos, plus the dozens of new houses built and sold every month along Truxel Road.

The growth has been phenomenal and although the league could prepare for some increase based on monies collected from the 1984 season, who could adequately prepare for such an overwhelming growth as we've seen in South Natomas?

In terms of little league, our estimates (conservatively) show we've gone from 150 current players to an additional 150 interested children! It's an all-out boom.

There are pee wee fields already established for the very young and bobby sox fields already established for the older female players. Little League, ages 8-16, draws more players than the two other leagues and we find ourselves with diamonds that could actually accommodate only 10 of the 20 teams we expect this year.

### FUTURE SUCCESS

In addition to irrigation, land leveling, grass maintenance, chain link fencing, benches and bleachers, we plan to use the hoped-for \$20,000 to build a permanent storage shed. This storage shed will also house a permanent snack bar.

The snack bar will generate consistent monies that when used with sign-up fees will virtually confirm our success from year to year.

Where sign-up fees can be used for equipment and uniforms, snack bar fees can be used for field improvements. We feel confident that acquiring the \$20,000 now will insure our independence and success year after year after year.
