 - b. the proposed addition will not substantially alter the characteristics of the site or the surrounding neighborhood.
2. The project will not be detrimental to the public health, safety or welfare, nor result in the creation of a nuisance in that:
 - a. the proposed addition is located six feet from the existing detached garage and the addition will not prohibit access to the rear yard of the property; and
 - b. the proposed design of the addition is compatible with the existing residence and surrounding residential uses which consist of one and two story single family residences.
3. The project is consistent with the General Plan which designates the site for Low Density Residential uses.

A use for which a Special Permit is granted must be established within two years after such permit is approved. If such use is not so established the Special Permit shall be deemed to have expired and shall be null and void. If no building permit is required, the use shall be deemed established when the activity permitted has been commenced.

The decision of the Zoning Administrator may be appealed to the Planning Commission. An appeal must be filed within 10 days of the Zoning Administrator's hearing. If an appeal is not filed, the action of the Zoning Administrator is final.
