STAFF EVALUATION: The subject property contains two single family dwellings. The applicant is proposing to move one single family dwelling on the site and construct one additional unit with a detached barn/garage. (A total of four units). However, since the property is 43,574 square feet in size, a total of eight units are permitted on the site under the deep lot regulations of the zoning ordinance. The subject property is 357.7 feet in depth. The staff has reviewed the overall project and has no objection to the density or the design of the project. However, staff has concern regarding the design and use of the proposed barn/garage. The proposed barn design does not relate to the structures on the subject property. The proposed barn contains 864 square feet and is two-stories in height. This detached structure conforms to the zoning ordinance which allows a maximum height of 10 feet to the plate line. The submitted floor plan does not indicate garage doors; however, the site plan indicates vehicle entrance on the east side of the barn. Staff suggests the proposed barn be scaled down in size and plans submitted to staff for review and approval.

APPLIC. NO. P-9146MEETING DATE September 11, 1980CPC ITEM NO. 13**002409**

The proposed house move must be reviewed and approved by the Architectural Review Board.

STAFF RECOMMENDATION

1. The Negative Declaration be ratified.
2. The Special Permit be approved subject to the following conditions and based on findings of fact that follow:

Conditions

- a. Detailed landscaping and irrigation plans shall be submitted to staff for review and approval;
- b. Final site plans and floor plans shall be reviewed and approved by staff prior to building permit approval;
- c. The project shall satisfy all special conditions listed under Section 9(E), Deep Lot Regulations of the Zoning Ordinance;
- d. Subject to review and approval of the house move by the Architectural Review Board;
- e. The second floor area of the proposed barn shall only be used for storage;
- f. Applicant shall scale down the barn size and provide garage entrances as indicated on the site plan;
- g. No commercial operations shall be permitted in the barn/garage.

Findings of Fact

1. The proposal is based on sound principles of land use in that:
 - a. The project will further develop a partially vacant deep lot;
 - b. The project is compatible with surrounding land uses.
2. The proposal will not be detrimental to the public health, safety, or welfare in that:

The project provides adequate off-street parking to avoid potential problems on the adjacent public street.
3. The proposal is in harmony with the General Plan and the Colonial Community Plan in that:

These plans designate the subject site as residential and light density residential respectively.
