City Council
Sacramento, California

Honorable Members in Session:

SUBJECT: Speed Limit Resolution

SUMMARY

This is a newly updated speed limit resolution for setting the maximum speed limits on City streets.

BACKGROUND INFORMATION

Periodically, the City Council is requested to adopt an updated and revised resolution for setting the prima-facie (and maximum) speed limits on certain streets.

The attached draft resolution is essentially the last resolution (May 20, 1980) with two changes which have been underlined for your information.

At the present time, the speed limit on Pocket Road between Riverside Boulevard and Interstate 5 is 45 MPH. Pocket Road is in a state of widening from Riverside Boulevard to River Isle Way and is approximately 20 feet wide from River Isle Way to Interstate 5. Upon review of this information in addition to the accident history, the nature of several curves on Pocket Road, increased volumes due to urbanization of the Pocket area, and lack of adequate street lighting, we recommend that a uniform speed limit of 40 MPH be placed on Pocket Road from Riverside Boulevard to Interstate 5. This will also add uniformity to the Pocket area, as Riverside Boulevard from Pocket Road to 43rd Avenue presently has a 40 MPH speed limit.

Thirty-Fifth Avenue between Freeport Boulevard and Riverside Boulevard is a 50-foot wide two-lane road and is presently posted at 35 MPH. It serves as a residential minor collector street. It is compatible with other

streets in this area, such as South Land Park Drive and Gloria Drive, that have speed limits of 30 MPH. We recommend reducing the speed limit to 30 MPH. These changes are requested in response to staff-initiated investigation and citizen input concerning the safety of the motoring public.

FINANCIAL IMPACT

None.

RECOMMENDATION

It is recommended that the City Council adopt the revised speed limit resolution.

Respectfully submitted,

L. M. Frink
Traffic Engineer

Recommendation Approved:
