Summary:

The owner is seeking entitlements to replace an existing two story, three car garage with a new three car garage with a 930 square foot apartment on the second floor. The parcel currently contains a duplex and the three car garage. A Rezone, Plan Review, and several variances are necessary to construct the garage and apartment on the small parcel.

Committee/Commission Action:

On December 12, 2005, the Planning Commission unanimously (seven ayes and zero noes) approved the Plan Review and Variances and forwarded the recommendation to approve the Rezone to the City Council.

Background Information:

The proposed project site is located at 2761 and 2763 Riverside Boulevard. To the east of the site are single family residences, to the north and south of the site are duplexes, to the west of the site is a sixplex. The subject parcel currently contains a duplex with a detached two-story, three car garage. The garage is in poor condition and the property owner would like to replace the garage with a new three car garage with a 930 square foot garage on the second story.

The owner of the project site is seeking entitlements to construct a three car garage with second story apartment unit on the site of the existing garage. The proposed garage will be two stories with modern design influences totaling 1560 square feet (957 sq.ft. on the first floor and 930 sq.ft. on the second floor). Several variances are necessary to construct the apartment on the parcel in the same location as the existing garage.

Financial Considerations:

The project has no fiscal considerations.

Environmental Considerations:

The proposed project is exempt from environmental review pursuant to CEQA Guidelines (CEQA Section 15301(e) & 15303(b)). Section 15301(e), "... additions to existing structures provided that the addition will not result in an increase of more than:

- (a) 50 percent of the floor area of the structures before the addition, or 2,500 square feet, whichever is less; or.
- (b) 10,000 square feet

Section 15303(b), "A duplex or similar multi-family residential structure totaling no more than four dwelling units. In urbanized area, this exemption applies to apartments, duplexes, and similar structures designed for not more than six dwelling units.

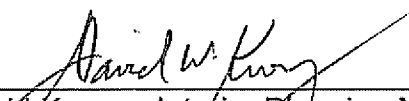

Furthermore, the site is not located in an environmentally sensitive area, does not contribute to a cumulatively significant environmental effect, is not located near a scenic highway, is not designated as a hazardous waste site, and will not cause a substantial adverse change in the significance of a historical resource.

Policy Considerations:

The 2761 & 2763 Riverside Boulevard Rezone project, has been determined to be consistent with applicable City policies, including the City's Smart Growth Principles, as well as the City's Strategic Plan three-year goals of achieving sustainability and enhance livability, and increasing opportunities for all Sacramento residents to live in safe and affordable housing .

Emerging Small Business Development (ESBD):

No goods or services are being purchased under this report.
