Honorable Members in Session:

SUBJECT: Extension of Stockton Boulevard and Franklin Boulevard  
Commercial Revitalization Coordinator Contracts

## SUMMARY

This report requests authorization to extend the existing Stockton Boulevard and Franklin Boulevard Commercial Revitalization Coordinator contracts through December 1988 for an additional \$25,000 each.

## BACKGROUND

The Sacramento Housing and Redevelopment Agency contracted with the Small Business Improvement Network and Zephyr Urban Management Associates to act as commercial revitalization coordinators for Stockton Boulevard and Franklin Boulevard, respectively. Maps of the Stockton Boulevard and Franklin Boulevard commercial revitalization areas are provided in Attachments 1, 2 and 3. Each contract expires on December 31, 1987.

Under each proposed new twelve month contract, the coordinator will continue to be paid \$25,000 or \$2,083/month for services rendered as specified in an authorized Agency work plan. This amount is standard for all of the Agency's existing revitalization coordinator contracts. In addition, after six months and after twelve months, evaluations will be made to determine whether or not to continue the contracts.

A summary of the status of each area follows:

## Stockton Boulevard

In May 1986 the Agency contracted with the Small Business Improvement Network to act as commercial revitalization coordinator for the Stockton Boulevard commercial target area. The contract was then extended to coincide with the end of the Agency's fiscal year, December 31, 1987.

During the term of the contract, significant accomplishments have furthered the City and County objectives for commercial revitalization. Some of the accomplishments to date include:

- An increase in Stockton Boulevard Merchants and Property Owners Business Association (Merchants Association) membership by 300%.
- The establishment of a Business Improvement District (BID). The funds raised from the self-imposed assessment district will provide about \$8,000 for the Merchants Association's efforts to promote commercial activity on the Boulevard.
- The marketing of the Agency's commercial finance programs, resulting in  
18 facade grant applications;  
7 facade projects completed; and,  
6 loan applications approved.
- The preparation and maintenance of a monthly up-to-date inventory of property available for sale and lease on the Boulevard.
- The attraction of new investment to Stockton Boulevard. A very successful luncheon for real estate investors, brokers and developers was held. Over 50 attendees who represented major firms, such as Coldwell Banker, Banchemo Company, Grubb & Ellis, MCM Corporation, Red Carpet Investments, Sylva-Kirk, and Norris, Beggs and Simpson have expressed interest. Real estate fliers were prepared on available development sites (see attachment 4). The coordinator now receives almost 10 - 15 calls per month requesting more information.

In general, the coordinator has performed very well, and has consistently worked to establish a viable cohesive commercial district. The coordinator understands the commercial revitalization program thoroughly, and has worked effectively with Agency staff and businesses on the Boulevard in pursuing revitalization activities. The coordinator has regularly contacted not only the business operators, but the local and out-of-town property owners. The trust and relationship developed are reflected in the fact that the coordinator is often asked for business management assistance and advice, and has gone as far as preparing individualized financial plans and helping owners find new tenants for vacant commercial space.

## Franklin Boulevard

Since April 1984, Zephyr Urban Management Associates has been under contract with the Agency to perform commercial revitalization coordinator activities on Franklin Boulevard. The Association has focused on making needed capital improvements and undergrounding overhead utility lines. A number of accomplishments have taken place: 1) the formation of a Business Improvement District, 2) the strengthening of a cohesive business association, 3) the development of a commercial revitalization plan, 4) the completion of design guidelines for building improvements, and 5) the scheduling of a number of clean-up events and tree planting activities.

The priorities for 1988 include 1) the resolution of problems associated with the design construction and financing of capital improvements along the unimproved sections of the Boulevard, 2) the establishment and marketing of the underground utility assessment district, 3) continuing new business development and business attraction activities (see Attachment 5), 4) the marketing and involvement of business people in the Agency's financing programs, 5) the resolution of nuisance problems resulting from "cruisers", and 6) the coordination of promotional events.

In order to provide the continuity which exists when the same coordinator works with property and business owners and given the performance record of Zephyr Urban Management Associates throughout the contract period, it is recommended that the Agency extend the contract with Zephyr Urban Management Associates through December 1988.

An attachment to the contract amendment will include the 1988 work plan for the Boulevard. The work plan will be reviewed by the Franklin Boulevard Merchants Association Board of Directors in December 1987.

## **FINANCIAL DATA**

The cost to extend both contracts through December 1988 will be \$25,000 for each area.

The Franklin Boulevard contract will be paid entirely from City Community Development Block Grant (CDBG) funds. The Stockton Boulevard contract is split between City and County CDBG funds.

Financing for the coordinators will be allocated from the 1988 general economic development line item under the City and County CDBG programs. A fund balance for each is shown in Attachments 6 and 7, respectively.

## **ENVIRONMENTAL REVIEW**

The proposed action does not require environmental review pursuant to the California Environmental Quality Act (CEQA). The appropriate review will be made on individual projects as they are implemented.

## **POLICY IMPLICATIONS**

The recommended resolution is consistent with previously approved policy and no new policies are recommended at this time.
